No. C-622 of 1911.

REVENUE DEPARTMENT.

Office of the Commissioner in Sind,

Government House, Karachi, 1st November 1911.

Report on the Rail and River-Borne Trade of the Province of Sind for 1910-1911.

Submitted to Government.

A. D. YOUNGHUSBAND,
Commissioner in Sind.

THE CHIEF SECRETARY TO GOVERNMENT,

Revenue Department,

BOMBAY.

L (IV) 298

The maximum limit of this Report has been fixed at 14 pages for the text and 39 pages for the appendices. (*Vide* letter No. 600, dated the 3rd June 1901, from the Director-General of Statistics, embodied in Bombay Government Resolution No. 4350, dated the 24th June 1901.)

TABLE OF CONTENTS.

No.		Page.
1	Report on the Rail and River-borne Trade	i—vi
2	Note showing the system on which the returns are compiled and the methods by which value rates are fixed ...	1—2
3	Table No I showing the Rail and River-borne Trade of Sind and British Baluchistan with Karachi and the external blocks during the year ending the 31st March 1911.	3—16
4	Statement I-A showing the Trade between the Panjab and Sind by the River Indus for the year ending the 31st March 1911	17—18
5	Table II showing the Traffic between Sind and British Baluchistan and Karachi by Railway during the year ending the 31st March 1911	19—22
6	Appendix A showing Rates of Deductions from Gross Weights and Average Prices of Articles comprising the Rail and River-borne trade of the Province of Sind and British Baluchistan for the year ending the 31st March 1911	23—25

L (IV) 298

REPORT ON THE RAIL AND RIVER-BORNE TRADE OF THE PROVINCE OF SIND AND BRITISH BALUCHISTAN FOR THE YEAR 1910-11.

1. There were no changes in the classified list of articles which enter into the Rail and River-borne trade of India during the year under report excepting some modifications in the arrangement of headings which hitherto were not arranged in strict alphabetical order. All exports of sugar from Sind and British Baluchistan to other blocks are now registered under refined sugar, no sugar being produced in the Province.

There was no change in the arrangement of blocks or in the system of the registration of trade.

General Remarks.

2. As usual, the trade shown in the attached statement has been classed for the purposes of this report under two heads, *viz*:—(1) External and (2) Internal. Under the latter head is exhibited the trade carried on between (1) Karachi and (2) Sind (excluding Karachi) and British Baluchistan.

3. In previous reports particulars were given of the additions to open mileage during the year. Information as regards the past year has not yet been supplied by the North-Western Railway, and in order to avoid further delay in the issue of this report the usual details have had to be omitted.

4. The subjoined table, supplied by the Director of Agriculture, Bombay, shows noticeable fluctuations in the prices of some of the principal Indian products for the year 1910-11 compared with the previous year.

	Articles.	Rate per Indian Maund.		Variation.		Causes of variations above 15 per cent.
		1909-10.	1910-11.			
		Rs. a.	Rs. a.		Rs. a.	
1.	Cotton, raw	23 7	28 10	+	5 3	High prices ruling in the foreign market raised prices of Indian cotton.
2.	Twist and yarn, Indian ...	34 1	38 15	+	4 14	Rise in prices in sympathy with the high prices of raw cotton.
3.	Turmeric	6 6	10 0	+	3 10	Smaller imports from the United Provinces.
4.	Fodder	0 11	0 15	+	0 4	Less supply.
5.	Wheat	4 10	3 15	—	0 11	Larger production and increased imports from the Panjab.
6.	Jute, raw	8 7	9 15	+	1 8	Larger demand in connection with increased imports.
7.	Cocoanut Oil	20 2	25 1	+	4 15	Smaller imports.
8.	Castor seed	4 14	5 10	+	0 12	Larger demand for exports to foreign markets.
9.	Linseed	6 6	9 1	+	2 11	
10.	Til or jinjeli	6 3	7 2	+	0 15	
11.	Opium	894 8	1,297 0	+	402 8	Rise due to competition among merchants to ship chests to China before the maximum limit fixed by Government was reached.
12.	Ginger	19 13	23 11	+	3 14	Smaller imports.

5. The following table shows the entire quantity and value of both external and internal trade, exclusive of treasure and living animals, for the

five years ending 1910-11 :—

Description of trade.		1906-1907.		1907-1908.		1908-1909.		1909-1910.		1910-1911.	
		Quantity.	Value.	Quantity.	Value.	Quantity.	Value.	Quantity.	Value.	Quantity.	Value.
		I. Mds.	Rs.	I. Mds.	Rs.	I. Mds.	Rs.	I. Mds.	Rs.	I. Mds.	Rs.
External trade of the province.	Imports...	29,272,204	10,57,61,502	32,201,403	13,82,69 287	11,132,619	6,76,85,814	34,228,500	16,81,51,731	38,468,339	17,18,63,251

Grand Total ...		59,039,451	31,13,17,776	68,477,513	37,27,50,533	40,395,685	27,00,74,380	63,213,361	40,02,61,380	62,490,878	40,05,14,212

6. The volume of the trade, both external and internal, shows a falling off of 7 lakhs maunds or 1·14 per cent. in quantity and a rise of 2½ lakhs of rupees or ·06 per cent. in value as compared with the previous year. The variations under the principal items are explained in paragraphs 16, 21 and 22 below.

Taking imports from and exports to, external blocks separately, the former show an advance chiefly in wheat, which is the principal article of export to foreign countries from the port of Karachi, while the latter show a decline which is attributable to a decrease in coal supplies which were imported into the Panjab direct by rail from Bengal and to a falling off in Railway plant and Rolling stock owing to the fact that the special works during the previous years were not repeated during the current year. The season on the whole was a favourable one in Sind and elsewhere in India, there being a good inundation and abundant rainfall, and a good trade was carried on in general merchandise.

The figures of imports into and exports from, Karachi, for the last 10 years are given below :—

	Imports. I. Mds.	Exports. I. Mds.
1901-1902	27,400,630	5,839,414
1902-1903	21,516,489	6,414,841
1903-1904	31,404,936	8,061,112
1904-1905	51,597,837	12,512,802
1905-1906	29,600,376	17,167,818
1906-1907	38,356,426	16,889,989
1907-1908	40,968,201	23,358,303
1908-1909	15,144,796	22,112,933
1909-1910	41,685,024	18,442,739$\frac{16}{40}$
1910-1911	43,804,326	14,678,444$\frac{24}{40}$

Imports.

7. The imports from the external blocks exhibit an increase of 42 lakhs maunds or 12 per cent. in quantity and of 37 lakhs of rupees or 2 per cent. in value over the figures of the previous year. The quantity exceeds that of any other year in the decade excepting 1904-05, which is still a record year for imports. The increase is due to larger imports of wheat, unspecified food grains, rape and mustard seed and sesamum from the Panjab and United Provinces of Agra and Oudh where the season was more favourable than in the previous year.

Exports.

8. The exports to external blocks show a decline of 30 lakhs maunds or 21 per cent. in quantity but an improvement of 51¾ lakhs or 4 per cent. in value as compared with the figures of the previous year. The decline in quantity and rise in value are due chiefly to a fall in Coal and Coke exported to the Panjab and to an increase in more highly priced articles of merchandise.

9. The internal trade, both import and export, exhibits a falling off of 19½ lakhs maunds in quantity and 86 lakhs of rupees in value or 13 and 7 per cent. respectively as compared with the previous year. Cotton Raw, Juari and Bajri, Wheat, Unspecified Grains and Pulses, Rape and Mustard-seed and Unspecified Oilseeds under Imports and Coal and Coke, Cotton goods (both Foreign and Indian), Iron and Steel and Unspecified Railway Materials under Exports are the principal articles which have brought about the decrease. The fluctuations in the principal articles are separately explained in para. 22.

I.—External Trade.

Imports.

10. The imports from the Panjab exhibit an advance of 14¾ lakhs maunds or 4 per cent. in weight and a fall of rupees 30½ lakhs or 1·9 per cent. in value. The increase chiefly occurs under wheat (+2,489,435 maunds), Unspecified sorts of Grain and Pulse (+145,494 maunds), Rape and Mustard Seed (+31,99,221 maunds), Sesamum Seed (+43,396 maunds), Ghi (+2,529 maunds), Timber Unwrought (+45,328 maunds) and Wool, Raw (+58,696 maunds).

The items in which there is a decrease are Cotton, Raw (−175,423 maunds), Gram and Pulse (−237,953 maunds), Juari and Bajri (−132,489 maunds), Hides, Raw (−5,663 maunds), Skins, Raw (−23,235 maunds), Unspecified Oilseeds (−3,795,675 maunds), and Gur (−18,592 maunds).

11. The imports from the United Provinces of Agra and Oudh show an improvement of 24¾ lakhs maunds in quantity and 58½ lakhs of rupees in value or 217 and 77 per cent. respectively. The increase chiefly occurs under Wheat (+2,127,207 maunds), Unspecified Grains and Pulses (+55,495 maunds), Rape and Mustard seed (+196,869 maunds), and Sesamum seed (+43,119 maunds). There is on the other hand a decline under Cotton, Raw (−14,644 maunds), Unspecified Oilseeds (−108,568 maunds), and Gur (−96,112 maunds).

12. The imports from Bombay show an improvement of 3,187 maunds in quantity and rupees 64,269 in value or 6 and 3 per cent. respectively. The increase chiefly occurs under Piece-Goods, Indian (+2,137 maunds), Fruits and Vegetables (+1,423 maunds), Unspecified Oils (+1,326 maunds), and Ghi (+2,024 maunds). There is a falling off under Cotton, Raw (−3,715 maunds).

13. The imports from Bengal including the Chief Seaport town of Calcutta show an increase of 2¾ lakhs maunds or 277 per cent. in quantity and one lakh rupees or 37 per cent. in value as compared with the previous year, chiefly under Coal and Coke (+269,017 maunds), and Iron and Steel bars, sheets, &c., (+7,948 maunds). There is a decrease under Rice not in the husk (−2,089 maunds).

14. As compared with the previous year the imports from Rajputana and Central India show an increase of 18,243 maunds or 3 per cent. in quantity and rupees 6 lakhs or 18 per cent. in value. The increase chiefly occurs under Cotton, Raw (+7,875 maunds), Juari and Bajri (+1,422 maunds) Wheat (+9,562 maunds), Rape and Mustard seed (+48,793 maunds), Unspecified Oilseeds (+16,297 maunds, and Ghi (+2,643 maunds). There is on the other hand a decrease under Gram and Pulse (−25,206 maunds), Unspecified Grains and Pulses (−33,574 maunds), and Sesamum seed (−10,611 maunds).

15. The Import trade with other blocks is too insignificant to call for any special comment.

16. The principal variations are explained below :—

Cotton, Raw (—185,907 maunds or 6,829 tons). In the Panjab there was a contraction in the area cultivated owing to an adverse season and some damage was also caused by untimely rain in October and intense cold in December. In the United Provinces of Agra and Oudh although good irrigational supply and timely rainfall led to increased cultivation the outturn and the quality of the fibre were seriously affected by very heavy rainfall in the beginning of October which caused serious damage to the crop and accounts for the decline in imports.

Gram and Pulse (—262,022 maunds or 9,625 tons). The decrease was due to the outturn in the Panjab being poor owing to a cold snap in February.

Wheat (+4,626,798 maunds or 169,964 tons). *Grain and Pulse* others (+167,408 maunds or 6,150 tons). The increase under these heads was due to an excellent harvest owing to the monsoon being favourable, the rains good and well distributed and the inundation very satisfactory.

Hides, Raw (—6,042 maunds or 222 tons), *Skins, Raw* (—24,659 maunds or 906 tons). Owing to good local demand the supply of hides for export was short. The export of both these commodities was restricted by local prices ruling very high.

Rape and Mustard Seed (+3,444,888 maunds or 126,547 tons), *Linseed* (+59,419 maunds or 2,183 tons). The increase was due to favourable seasonal conditions in the Panjab.

Sesamum Seed (+75,747 maunds or 2,783 tons). There was a large demand for export under the stimulus of high prices and the outturn in Sind was almost double that of the previous year.

Ghi (+3,934 maunds or 144 tons). The increase under this head was due to high prices ruling in Sind.

Silk, Raw, Indian (+1,199 maunds or 44 tons). Large purchases were made owing to the silk spinning trade on the continent being brisk and the silk crop in France short.

Gur, Rab, Jaggery, &c. (—113,840 maunds or 4,182 tons). The fall under this head was due to large imports of refined sugar, which was selling at cheaper rates than in the previous year and to large imports of cheap Java Molasses.

Wool, Raw (+79,140 maunds or 2,907 tons). The exports by sea showed a falling off, but it is now evident that large stocks were held in Karachi as the exports to foreign countries up to the end of August 1911 exceed those of the corresponding period of the previous year by 802 tons.

Exports.

17. The exports to the Panjab exhibit a decrease of 29¾ lakhs maunds or 22 per cent. in quantity and a rise of 38¼ lakhs of rupees or 3 per cent. in value as compared with the figures of the previous year. The decline is chiefly noticeable under Coal and Coke (—1,641,986 maunds), Twist and Yarn, European, (—3,416 maunds), Wines and Spirits (—4,124 maunds), Iron and Steel bars, sheets, &c. (—54,013 maunds), Railway Plant and Rolling stock (—1,721,343 maunds) and Timber unwrought (—140,268 maunds).

There is on the other hand an increase under Twist and Yarn Indian (+10,811 maunds), Piece-goods Indian (+11,192 maunds), Rice not in the husk (+35,681 maunds), Iron and Steel unwrought (+11,794 maunds), Machinery and Millwork (+3,275 maunds), other Manufactures of Iron and Steel including Hardware and Cutlery (+85,591 maunds), and Sugar Refined (+252,402 maunds).

18. The exports to the United Provinces of Agra and Oudh show an improvement of 60 thousand maunds in quantity and rupees 14 lakhs in value or 11 and 29 per cent. respectively. The increase is noticeable chiefly under Rice not in the husk (+37,970 maunds), Lac (+6,799 maunds), and Sugar refined (+30,663 maunds).

There is a falling off under Iron and Steel Bars, Sheets, &c. (−6,921 maunds), and Kerosine Oil (−7,902 maunds).

19. The exports to Rajputana and Central India again show a decline of 1¼ lakh maunds or 34 per cent. in quantity and 3½ lakhs rupees or 11 per cent. in value as compared with the figures of the previous year. The decrease chiefly occurs under Kerosine Oil (−12,530 maunds), Locomotive Engines and Tenders and Parts thereof (−4,262 maunds), Carriages and Trucks (−8,167 maunds), Steel Rails and Fish Plates (−110,959 maunds), and Unspecified Railway Materials (−2,386 maunds). There is an increase under Rice not in the husk (+3,815 maunds), Machinery and millwork (+3,720 maunds), and Timber unwrought (+5,950 maunds).

20. The export trade with other blocks is too insignificant to call for special mention.

21. The principal variations in the trade are explained below:—

Coal and Coke (−1,641,181 maunds or 60,288 tons). The decline under this head was due to the Panjab and other Provinces getting their supplies direct from the mines by rail instead of by sea.

Twist and Yarn, European (−3,431 maunds or 126 tons). High prices restricted exports to external blocks.

Twist and Yarn, Indian (+10,791 maunds or 396 tons)
Piece-Goods, European (+4,327 maunds or 159 tons)
} The increase follows on a decrease in the preceding year.

Iron and Steel, Wrought, Bars, Sheets, Girders, &c., (−59,798 maunds or 2,197 tons). Owing to a rise in price at home and a steady decline in the production of pig iron in America, imports by sea and exports by rail were restricted.

Kerosine Oil (−10,944 maunds or 402 tons). The decrease under this head may be attributed to the use of duty free Burma oil imported by rail from Bengal in lieu of foreign duty paid oil.

Railway Plant and Rolling Stock (−1,840,836 maunds or 67,623 tons). The decline is the natural consequence of large exports to the Panjab, Rajputana and Central India, for special works, which have since been completed.

Sugar Refined (+690,168 maunds or 25,353 tons). Large exports were made to external blocks consequent on a fall in prices which was caused by a favourable beet crop and the steady extension of the Java sugar industry.

Woollen Piece-Goods (+6,989 maunds or 257 tons). The increase follows upon a decline in the last year and is attributed to a large demand for Shawl cloth in the Panjab.

II.—Internal or Local Trade.

22. The chief variations and their causes are given below:—

Imports into Karachi.

Cotton, raw (−107,742 maunds or 3,958 tons). The area under cotton cultivation in Sind was larger than that of the previous year but owing to frost at the end of December, the crop was damaged and the outturn was two-thirds of the normal or 10 per cent. less than the previous year.

Juari and Bajri (−77,628 maunds or 2,852 tons), *Unspecified Grains and Pulse* (−147,823 maunds or 5,532 tons). There was a contraction in the area cultivated with these crops owing to low inundation.

Wheat (—1,076,996 maunds or 39,563 tons). The area under cultivation in Sind diminished considerably owing to low inundation and the crop suffered through deficiency of water-supply and the outturn was about 60 per cent. of the normal.

Rape and Mustard (—227,689 maunds or 8,364 tons), *Unspecified Oil-seeds* (—313,538 maunds or 11,518 tons). The decrease under these heads was due to the area under cultivation being curtailed owing to insufficiency of water and the yield varied from 50 to 80 per cent. of the normal. *Sesamum Seed* (+40,783 maunds or 1,498 tons). The increase under this head was due to extension of cultivation under ample rains and favourable inundation and in Upper Sind Frontier high prices obtainable for oilseed acted as an incentive.

Exports from Karachi.

Coal and Coke (—150,770 maunds or 5,519 tons). The explanation given in paragraph 21 applies here also.

Cotton Twist and Yarn, European (—841 maunds or 21 tons), and Indian (—5,437 maunds or 199 tons), Cotton Piece-Goods European (—21,477 maunds or 789 tons) and Indian (—87,334 maunds or 3,208 tons). Large exports made last year and high prices ruling during the year under report restricted exports.

Iron and Steel, Wrought, Bars, Sheets, Girders, &c. (—68,956 maunds or 2,533 tons). Exports fell in sympathy with diminished imports by sea.

Machinery and Millworks (—1,365 maunds or 50 tons). The decrease under this head follows upon a large increase last year.

Sugar Refined (+63,889 maunds or 2,347 tons). Owing to decreased imports of Sugar Unrefined and Gur from the United Provinces of Agra and Oudh and the Panjab on account of failure of crops there was a larger demand for foreign sugar.

III.—Other important Features of the Trade.

23. The statement usually attached to this report showing the alterations in railway freights on goods carried by the North-Western Railway has been omitted this year and will not appear in future reports as the utility of the statement is considered by the Government of India not to be commensurate with the trouble involved in preparing it.

The trade of the seaport Town of Karachi during the year is, as usual, larger than that of the rest of the Province as a whole.

A statement showing the trade between the Panjab and Sind by the River Indus and an appendix A showing the value rates adopted for each article for each quarter are attached.

A. H. P. WOLFERSTAN,
Acting Chief Collector of Customs.

Karachi, 2nd October 1911.

NOTE.

For the purpose of the inland trade statistics, the whole of India is divided into 17 blocks, *viz.*, eight blocks representing the British Provinces—(1) Madras, (2) Bombay, (3) Sind and British Baluchistan, (4) Bengal, (5) United Provinces of Agra and Oudh, (6) Panjab, (7) Central Provinces and Berar and (8) Eastern Bengal and Assam; four representing the Native States—(1) Rajputana and Central India, (2) Kashmir, (3) the Nizam's Territory and (4) Mysore; and five representing the chief seaport towns—(1) Madras, (2) Bombay, (3) Karachi, (4) Calcutta and (5) Chittagong. The trade of Native States which lie within the external boundaries of a British Province is included in the trade of that province. Under this arrangement of blocks, the trade exhibited under Sind and British Baluchistan represents the trade of the Province of Sind and British Baluchistan, including the Native State of Khairpur, but excluding the seaport town of Karachi, the trade of which is shown separately. Similarly the trade shown against Madras, Bombay, Bengal and Eastern Bengal and Assam represents the trade of those provinces, exclusive of the seaport towns of Madras, Bombay, Calcutta and Chittagong respectively. The work of registering the trade is performed by the principal railway audit offices.

The required information is collected from railway invoices which show the description of goods, the places from which they are sent and at which they are delivered and their gross actual weights. The weight recorded in the tables represents net weight, which is obtained by deducting a certain percentage (which is fixed at different rates for the several classes of goods, for packing materials) from gross actual weight.

Information in respect of the import trade by rail is supplied every quarter to this office for compilation by the Examiner of Accounts, North-Western Railway, Lahore, and the Auditor, Jodhpur-Bikanir Railway, Jodhpur.

The figures of the Export trade are furnished by:—

(1) The Examiner of Accounts, North-Western Railway, Lahore.

(2) The Government Examiner of Accounts, Bombay, Baroda and Central India Railway, Bombay.

(3) The Examiner of Accounts, Oudh and Rohilkhand Railway, Lucknow.

(4) The Examiner of Accounts, Eastern Bengal State Railway, Calcutta.

(5) The Chief Auditor, East Indian Railway, Calcutta.

(6) The Chief Auditor, Bengal North-Western Railway Company, Limited, Gorakhpur.

(7) The Auditor, Bengal Nagpur Railway, Calcutta.

(8) The Chief Auditor, Great Indian Peninsula Railway, Bombay, (Indian Midland Railway Section).

(9) The Director-General of Commercial Intelligence, Calcutta.

(10) The Examiner of Accounts, Bhavnagar Gondal Junagad Porbandar Railway, Bombay.

(11) The Auditor of Bengal Provincial Railway Company, Limited, Magra.

(12) The Auditor of Accounts, Rohilkhand and Kumaon Railway, Bareilly.

The river-borne trade represents the trade carried by country boats plying on the Indus between the Panjab and Sind and is registered at Sukkur and Kotri by clerks who collect the information from boatmen and the statistics are furnished to this office by the Deputy Conservator and Registrar, River Iudus, Sukkur. The river traffic is adjusted in the return according to the following rules laid down in Government of India letter No. $\frac{518}{57\text{-}3}$ Statistics, dated the 5th June 1890:—

I. When the imports by river from the Panjab exceed the imports by rail from Sukkur and Kotri into Karachi, the latter is classed as imports from the Panjab into Karachi and the difference as imports from the Panjab into Sind and British Baluchistan.

II. When the imports by rail from Sukkur and Kotri into Karachi exceed the imports by river from the Panjab, the latter is classed

as imports from the Panjab into Karachi and the difference plus the imports from other stations in Sind and British Baluchistan to Karachi as trade between Sind and British Baluchistan and Karachi.

III. When the exports by rail from Karachi to Sukkur and Kotri exceed the exports by river to the Panjab, the latter is classed as exports from Karachi to the Panjab, and the difference plus the exports from Karachi to Sind (excluding Sukkur and Kotri) as trade between Sind and British Baluchistan and Karachi.

IV. When the exports by river to the Panjab exceed the exports by rail from Karachi to Sukkur and Kotri, the latter is classed as exports from Karachi to the Punjab and the difference as exports from Sind and British Baluchistan to the Panjab.

The quarterly returns received from the several registering officers are compiled in this office and a consolidated return showing quantities, but no values, is sent every quarter to the Director-General of Commercial Intelligence.

The registering officers give only the weight of the goods in maunds of $82\frac{2}{7}$ lbs. Lists of value rates are supplied by each province quarterly and the values of the trade of each quarter are worked out separately in this office and then added together for the annual returns. The Native States furnish no returns, the trade registered is the trade which comes into and goes out of each block by rail; and the value rates of Sind are adopted in calculating the values of the trade.

Appendix A shows the value rates for Sind and British Baluchistan adopted in each of the four quarters of the year 1910-11 at which the values of the articles in which the trade was carried on are calculated.

(*a*) The rates of articles marked A (in the appendix) which represent the value rates of foreign merchandise are based on the values declared by the importers in their bills of entry at the time of passing the goods out of the Customs House, and may therefore be regarded as approximately accurate.

(*b*) The rates for articles marked B, which represent articles of Indian Merchandise, are supplied by the Director of Agriculture, Bombay, who obtains them from the monthly returns furnished to him by the Huzur Deputy Collectors of Karachi, Hyderabad and Sukkur, which are published by him in the Gazette. They represent the average of the monthly prices ruling on the 20th of each month and may be regarded as reliable.

(*c*) The rates of articles marked C in the appendix are obtained by the Director of Agriculture by local inquiry from wholesale dealers in Bombay. In respect of Railway plant, inquiry is made of the B. B. and C. I. and G. I. P. Railway workshops, and in respect of twist and yarn and piece goods (Indian), the rates are worked out from quotations furnished by the Mill-owners' Association to the Chamber of Commerce. These rates may be regarded as approximately correct.

(*d*) The rates of articles marked D are the rates fixed once for all in consultation with the Director-General of Commercial Intelligence, Calcutta, and are therefore merely conventional.

Table I shows the rail and river-borne trade of the blocks—(1) Karachi and (2) Sind and British Baluchistan with each other as well as with each of the other blocks into which India is divided. A statement showing the river-borne trade separately is also appended and marked 1-A.

Table II shows the traffic between Sind and British Baluchistan and Karachi. The whole of this trade is carried by rail, as there is no direct communication with Karachi by river.

The articles shown in the above tables are arranged in alphabetical order. The classification corresponds in the main with that employed in the Sea-borne trade accounts, but is less detailed and the articles are not grouped under seven main headings as is done in the Sea-borne trade accounts.

TABLE No. I.

Statement showing the Rail and River-borne Trade of Sind and British Baluchistan with, Karachi and the External Blocks during the year ending the 31st March 1911.

N. B.—In this table the trade of any Province under any head which does not exceed Rs. 10,000 in value against either imports or exports has been lumped up and shown against 'other places', the Province to which such trade appertains not being specifically shown.

A.—Approximately accurate, based on the values put in by merchants in bills of entry while passing the goods from the Customs House.

B.—Reliable, being based on the average prices ruling every month and published in the Gazette by the Director of Agriculture.

C.—Conventional rates fixed once for all in consultation with the Director General of Commercial Intelligence, Calcutta.

D.—Approximately accurate, being the rates given by the Director of Agriculture, who obtains them by local inquiries in Bombay from Railway Workshops and mill-owners.

6	Appendix A showing Rates of Deductions from Gross Weights and Average Prices of Articles comprising the Rail and River-borne Trade of the Province of Sind and British Baluchistan for the year ending the 31st March 1912	24—26

REPORT ON THE RAIL AND RIVER-BORNE TRADE OF THE PROVINCE OF SIND AND BRITISH BALUCHISTAN FOR THE YEAR 1911-12.

1. The following changes were made in the classified list of articles of trade during the year under review :—

(i) A new Sub-head "Bran" has been added under the main head "Fodder."

(ii) Under "Liquors" each of the Sub-heads "(1) Ale and Beer, (2) Wines and Spirits of all kinds, including country liquors, (3) All other sorts, including Toddy and Fermented liquor, other than Ale and Beer," has been split up into two detailed heads, *viz* :—(*a*) Imported and (*b*) Indian.

(iii) With effect from the beginning of the second quarter, the Sub-head "Cotton-seed" was inserted after "Castor," under the main head "Oil-seeds."

In consequence of the disintegration of the Bhawnagar, Gondal, Junagad, Porbandar Railway Coalition, the through-booked import traffic of that Railway is registered, with effect from the quarter beginning 1st July 1911, by the Chief Auditor and Accountant, Bombay, Baroda and Central India Railway and the figures are included in the quarterly trade returns supplied by the Government Examiner, Bombay, Baroda and Central India Railway, Bombay.

There was no change in the arrangement of blocks during the year under notice.

General Remarks.

2. There was a net increase of 113·642 miles in open line mileage of the entire North-Western Railway system from 1st April 1911 to 31st March 1912 made up as under :—

		Miles.
(1)	Remaining portion of Shorkot Road Chikoki Railway opened from 2nd May 1911	+ 87·700
(2)	Minor additions and alterations	— 1·933
(3)	Rajputana Bhatinda Railway	+ 0·562
(4)	Sutlej Valley Railway	— 0·703
(5)	Due to remeasurement	+ 3·504
(6)	New alignment Sambrial Bridge	+ 1·799
(7)	Taking over Sutlej Valley Railway at Lodhran and Kasur	+ 1·320
(8)	Sutlej Valley Railway	— 0·567
(9)	Durbar Railway opened on 19th October 1911 ...	+ 27·500
(10)	Khanpur Chachran Railway opened on 2nd July 1912	+ 22.020
(11)	Durbar Railway closed on 31st January 1912 ...	— 27·500
	Net increase ...	+113·642

The total open mileage that stood on the 31st March 1911 and 1912 was 4,760·969 and 4,874·611 miles respectively.

In addition to the above increase in mileage, the following sections of double line were opened for public traffic during the year :—

Amritsar—Umbala doubling section Jullunder Cantonment to—

Phagwara ...	...	10·22 miles on	29th April 1911.
Phagwara-Ludhiana	...	22·17 ,,	1st June 1911.
Dhilwan-Hamira	...	6·96 ,,	12th September 1911.
		39·35	

The Survey of the Kotri-Rohri doubling 172·35 miles was completed.

The following are the new lines under construction :—

(1) Kalabagh-Bannu Railway.
(2) Seraikala-Havelian Railway.
(3) Jakhal Hissar Railway.
(4) Jullunder-Hoshiarpur Railway.
(5) Jullunder-Doab Railway (being constructed by the Southern-Punjab Railway Company).

3. The noticeable fluctuations in the prices of some of the principal Indian products for the year 1911-12 as supplied by the Director of Agriculture, Poona, are shown in the following statement, with their causes.

Articles.	Rate per Indian Maund in		Variations.	Percentage increase or decrease.	Causes of variations.
	1910-11.	1911-12			
	Rs. a.	Rs. a.	Rs. a.	Per cent.	
1. Jawar and Bajra ...	3 0	3 7	+ 0 7	+ 14·6	Due to unsatisfactory character of the season.
2. Rice in husk	2 2	2 9	+ 0 7	+ 20·6	Due to deficient rain.
3. Skins of sheep raw ...	19 3	22 6	+ 3 3	+ 16·6	Due to larger demand for export.
4. Gunny bags and cloth ...	12 10	15 5	+ 2 11	+ 21·2	Due to larger demand owing to season.
5. Poppy seed	7 10	9 5	+ 1 11	+ 22·1	Due to restricted supply.
6. Opium	1,297 0	1,822 14	+ 525 14	+ 40·5	Due to competition among exporters for shipping the article within stipulated time.
7. Dried fruits and nuts ...	19 10	22 6	+ 2 12	+ 14	Due to larger demand.
8. Cardamoms	143 2	183 8	+ 40 6	+ 28·2	Due to larger demand and less supply.
9. Chillies	10 1	8 7	— 1 10	— 16·1	Due to larger imports.
10. Ginger	23 1	19 13	— 3 14	— 16·4	Due to less demand.
11. Pepper	19 7	24 2	+ 4 11	+ 24·1	Due to smaller imports.

4. For the purposes of this report the trade shown in the statement below para. 5 has, as usual, been classed under two heads, *viz* :—(1) External and (2) Internal. Under the latter the trade carried on with each other by the two blocks (1) Karachi and (2) Sind (excluding Karachi), and British Baluchistan is exhibited.

5. The entire quantity and value of trade, both External and Internal excluding Animals, living, and Treasure, for the five years ending 31st March 1912 is shown in the subjoined table :—

Description of trade.		1907-1908.		1908-1909.		1909-1910.		1910-1911.		1911-1912.	
		Quantity.	Value.	Quantity.	Value.	Quantity.	Value.	Quantity.	Value.	Quantity.	Value.
		I. Mds.	Rs.	I. Mds.	Rs.	I. Mds.	Rs.	I. Mds.	Rs.	I. Mds.	Rs.
External trade of the province.	Imports ...	32,201,403	13,82,69,287	11,132,619	6,76,85,814	34,228,500	16,81,51,731	38,468,339	17,18,63,251	52,628,412	21,16,68,899

Local or Internal trade of Sind and British Baluchistan with Karachi.	Imports... into Karachi.	10,391,794	5,99,33,321	5,755,153	4,14,06,168	9,139,300	6,52,36,441	7,737,187	5,91,16,832	8,049,310	5,80,85,517
	Exports from Karachi.	4,808,579	4,64,78,635	6,845,935	4,82,16,966	5,555,629	5,03,17,935	4,997,147	4,78,03,280	6,542,449	5,63,07,657
	Total ...	15,140,373	10,64,11,956	12,601,088	8,96,23,134	14,694,929	11,55,54,376	12,734,334	10,69,20,112	14,591,759	11,43,93,174
Grand Total ...		68,477,513	37,27,50,533	40,395,685	27,00,74,380	63,213,361	40,02,61,380	62,490,878	40,05,14,212	77,776,527	45,20,98,546

6. The total trade (both external and internal) showed an improvement of Maunds 152 lakhs or 24 per cent. in quantity and Rupees 515 lakhs or 12 per cent. in value over that of the previous year. The figures are the highest on record. The reason for the smaller percentage in value as compared with the increase in quantity is, that there was a larger trade in comparatively cheap priced commodities, such as, Gram, Barley and other food grains, the export of which was stimulated by the shortage in cattle-food stuffs in general in Europe owing to the dry summer. The following figures show imports into and exports from Karachi for the past ten years :—

		Imports. Mds.	Exports. Mds.
1902-1903	...	... 21,516,489	6,414,841
1903-1904	...	... 31,404,936	8,061,112
1904-1905	...	... 51,597,837	12,512,802
1905-1906	...	... 29,600,376	17,167,818
1906-1907	...	... 38,356,426	16,889,989
1907-1908	...	... 40,968,201	23,358,303
1908-1909	...	... 15,144,796	22,112,933
1909-1910	...	... 41,685,024	18,442,739
1910-1911	...	... 43,804,326	14,678,445
1911-1912	...	... 57,520,196	15,030,426

It will be seen that imports during the year under review were the highest yet recorded and advanced 167 per cent., during the decade and were 11 per cent. larger than in 1904-05, the last record year. Exports nearly trebled themselves during the decade and show an improvement of 2 per cent. as compared with the year previous, but are, nevertheless, smaller than any of the years 1905-1906 to 1910-1911, owing chiefly to the decline in coal.

7. The total imports from external blocks rose from Maunds 38,468,339 and Rs. 17,18,63,251 in 1910-1911 to Maunds 52,628,412 and Rs. 21,16,68,899 during the year under notice or 36 and 23 per cent. respectively.

8. Under exports to external blocks there was a shrinkage of Maunds 7 lakhs or 6 per cent., but the value increased by Rs. 43 lakhs or 3 per cent.

9. Compared with the previous year the total internal trade showed an improvement of Maunds 18½ lakhs or 14 per cent. in quantity and Rs. 74¾ lakhs or 7 per cent. in value. Imports from Sind and British Baluchistan into Karachi rose in quantity Maunds 3 lakhs or 4 per cent. and showed a decline in value of Rs. 10 lakhs or 2 per cent. Exports from Karachi to Sind and British Baluchistan showed an advance of Maunds 15½ lakhs or 30 per cent. and Rs. 85 lakhs or 17 per cent.

The fluctuations in the principal articles are explained in paras. 16, 22 and 23.

External Trade.

Imports.

10. The imports from the Punjab showed an increase of Maunds 95¾ lakhs or 28 per cent. in quantity and Rs. 280 lakhs or 18 per cent. in value chiefly under Gram and Pulse (+7,350,064 maunds), Jawar and Bajra (+178,822 maunds) Grain and Pulse, others (+3,545,195 maunds), Hides of Cattle, raw (+28,452 maunds), Skins, raw (+17,309 maunds), Iron and Steel, Bars, Sheets, &c., (+13,214 maunds) and Timber, Unwrought (+253,604 maunds), with a set back under Cotton, Raw (—232,787 maunds), Wheat (—879,730 maunds), Rape and Mustard Seed (—577,228 maunds), Til or Jinjili (—162,186 maunds), other Oil-seeds (—442,046 maunds), Gur, Rab, &c., (—40,658 maunds) and Wool, Raw (—17,395 maunds).

11. The imports from the United Provinces of Agra and Oudh showed an advance of Maunds 43 lakhs or 118 per cent., and Rs. 114¾ lakhs or 85 per cent., as compared with the previous year. The increase occurred mainly under Gram and Pulse (+344,141 maunds), Jawar and Bajra (+309,171 maunds), wheat (+1,938,442 maunds), unspecified Grains and Pulse (+1,611,754 maunds), Gur, Rab, etc., (+47,177 maunds). There was however a fall under Til and Jinjili (−67,533 maunds), unspecified Oil seeds (−25,101 maunds).

12. Imports from Bombay including the chief seaport town rose from Maunds 54,375 and Rs. 17,17,679 to Maunds 75,291 and Rs. 20,09,065 principally in Cotton Piece-goods, Indian (+3,750 maunds), and Timber Unwrought (+12,008 maunds).

13. Comparing the imports of the year under notice with those of the year previous, Bengal including the chief seaport town Calcutta showed an advance of Maunds 1¾ lakhs in quantity and Rs. 3¼ lakhs in value or 49 per cent. and 8½ per cent., respectively. The improvement was conspicuous chiefly under Coal (Government and Private) (+157,639 maunds).

14. Imports from Rajputana and Central India rose from maunds 5¼ lakhs to maunds 6 lakhs or 12 per cent.—The larger receipts of Gram and Pulse (+75,255 maunds) and unspecified grains (+103,037 maunds), brought about the rise. The value however declined from Rs. 38,73,727 to Rs. 33,77,463 or 12 per cent., owing to short supplies of Cotton, Raw (−5,803 maunds), Rape and Mustard Seed (−46,197 maunds) Til and Jinjili Seed (−92,825 maunds), unspecified Oil-seeds (−111,336 maunds) and Ghee (−6,818 maunds).

15. The trade with the other blocks is too insignificant to call for any special comment.

16. The causes of the principal fluctuations are referred to below:—

Cotton, Raw (−248,251 maunds or 9,119 tons).—The decrease was brought about by short crops owing to deficient rains in the Punjab and the United Provinces of Agra and Oudh during the two months of July and August and excessive winds and abnormal cold during November and December which caused serious damage. The previous year's crops were moreover early and the large arrivals at the end of 1910-11 reduced the quantity available for transport in 1911-12.

Indigo (−1,546 maunds or 57 tons).—Owing to the shortage of canal water at sowing time and an unfavourable season in the Punjab, the crops were below the normal.

Jawar and Bajra (+491,756 maunds or 18,065 tons).—The famine in Cutch and Kathiawar owing to scanty rains led to large imports for exportation to those States

Wheat (+1,043,275 maunds or 38,324 tons). Imports from the Punjab and Rajputana and Central India showed a decline but this shortage was more than counterbalanced by large supplies from the United provinces of Agra and Oudh. There was a large demand from Europe owing to the shortage of crops in Russia and Canada.

Gram and Pulse (+7,769,403 maunds or 285,407 tons).
Grain, other sorts (+5,263,579 maunds or 193,356 tons). } These figures indicate an enormous development. The principal items were Gram and Barley which were exported by sea in large quantities owing to the high prices offering in Europe in consequence of the scantiness of fodder, barley being also in demand for brewing purposes.

Hides of Cattle, Raw (+29,887 maunds or 1,098 tons).—There was a good demand from Europe, helped no doubt by restricted exports from China, one of the largest suppliers of hides, the revolution in that country having interfered with trade.

Skins of sheep and other animals, raw (+17,633 maunds or 648 tons). A large proportion of this increase was taken by the United States of America.

Linseed (—41,442 maunds or 1,522 tons), *Rape and Mustard seed* (—609,321 maunds or 22,383 tons), *Til or Jinjili seed* (—320,201 maunds or 11,762 tons), *Oil Seeds, others* (—578,553 maunds or 21,253 tons.)—The decreases under these articles were due to short crops in the Punjab owing to failure of rains.

Ghi (—3,839 maunds or 141 tons).—This decrease follows on an almost similar increase in the previous year under the stimulus of high prices.

Wool, Raw (—14,834 maunds or 545 tons).—In this commodity also the decrease followed an increase in the previous year. Prices at home were steady but the trade was threatened by a series of adverse influences and hence there was not much encouragement to ship.

Exports.

17. The exports to the Punjab declined in quantity from Maunds 103 lakhs in 1910-1911 to Maunds 90 lakhs or 12 per cent. during the year under review. The value showed an increase of Rs. 31 lakhs or 3 per cent. The falling off occurred mainly under Coal and Coke (Government and private) (—1,749,305 maunds or 64,260 tons), Cotton, Piece Goods, Indian (—32,171 maunds,), Rice not in the husk (—211,621 maunds) Sugar, refined (—634,224 maunds). The following articles however showed increases:—

Cotton, Twist and Yarn, Indian (+15,476, maunds) Cotton Piece-Goods European (+46,385 maunds), Iron and Steel, wrought (+357,431 maunds), Marble and Stone (+360,790 maunds), Kerosene Oil (+154,835 maunds), (+154,835 maunds), Carriages and Trucks, &c., (+45,776 maunds), Locomotive Engines, &c., (+11,501 maunds), Sleepers, &c., (+18,537 maunds), Steel rails, &c., (+93,262 maunds), Railway materials, other sorts (+22,929 maunds), Sugar, unrefined, Gur, Rab, &c., (+33,883, maunds), and Timber unwrought (+46,929 maunds).

18. In exports to the United Provinces of Agra and Oudh there was a decline of 61,332 maunds or 10 per cent. in quantity and of Rs. 9,08,828 or 14 per cent. in value chiefly in Sugar, refined (—59,591 maunds). The smaller demand for refined sugar was probably brought about by the fact, that the locally grown Sugar-cane was in much larger supply. The outturn of this crop was some 21 per cent. or 216,417 tons above that of the previous year in this Province.

19. Exports to Bombay including the chief seaport-town Bombay rose from 108,173 maunds in quantity and Rs. 6,92,339 in value in 1910-11 to 401,214 maunds, in quantity and Rs. 24,26,953 in value in 1911-12 respectively, principally owing to larger exports of Rice not in the husk (+277,370 maunds).

20. Exports to Rajputana and Central India rose during the year under review by more than maunds 2¾ lakhs or 117 per cent. in quantity and Rs. 4 lakhs or 15 per cent. in value. The rise occurred under coal and coke (Government and private) (+89,704 maunds), Kerosene Oil (+20,050 maunds), Steel Rails, &c. (+155,195 maunds) and Railway materials, other sorts (+12,951 maunds).

21. The export trade with other blocks is too insignificant to call for special mention.

22. The principal variations in the trade are explained below.

Coal and Coke (—1,661,461 maunds or 61,034 tons).—As stated in para. 21 of the last year's report, the Punjab and other Provinces get their supplies direct from the mines by rail instead of by sea, and the trade does not consequently pass through this Province.

Cotton, Twist and Yarn, European (—1,199 maunds or 44 tons), *Cotton Twist and Yarn, Indian* (+15,646 maunds or 575 tons). The Bombay mills

are now using American Cotton largely and are able to meet Indian demands to a greater extent than before.

Cotton, Piece-Goods, European (+46,891, maunds or 1,723 tons), Cotton, Piece-Goods, Indian (—34,332 maunds or 1,261 tons). The sea-borne trade returns show that there was an increase in the imports of European as well as Indian Piece-Goods, and the above figures would therefore seem to indicate that there was some delay in sending Indian goods up-country.

Brass manufactures (+169 maunds or 6 tons),

Copper manufactures (+644 maunds or 24 tons),

Iron and Steel, Bars, &c. (+309,809 maunds or 11,381 tons),

Iron and Steel, other manufactures (+44,011 maunds or 1,617 tons),

The larger trade is attributed to the low stocks at the end of the previous year combined with the lower rates ruling in the producing markets.

Iron and Steel, Machinery and Millwork (+4,423, maunds or 162 tons) The increase occurred in textile and flour mill machinery.

Kerosene Oil (+179,385 maunds or 6,590 tons).—This trade is steadily growing owing to the constantly extending use of petroleum.

Dried Fruits and Nuts (+3,550 maunds or 130 tons).—The increase was due to larger despatches of wet dates, the crops of which were abundant in Muscat and Asiatic Turkey whence they are imported.

Railway Carriages and Trucks (+50,634 maunds or 1,860 tons).—The increase is satisfactory in view of the complaints regarding the shortage in Rolling stock for carrying produce for shipment to Foreign Countries.

Sleepers and Keys, &c. (+18,510 maunds or 680 tons), *Steel Rails and Fish Plates* (+273,876 maunds or 10,061 tons), *Railway materials, other sorts* (+245,858 maunds or 9,032 tons). The increase under these heads was due to new works and the doubling of lines during the year.

Sugar, Refined (—697,886 maunds or 25,637 tons), sugar, unrefined Gur, Rab &c., (+32,555 maunds or 1,196 tons).—The decrease under the former was due to a sudden rise in prices in Europe in consequence of the small beet crop brought about by the drought during the summer of 1911.

Woollen Piece Goods (+878 maunds or 32 tons).—This trade is growing with the increase of Continental firms at this port.

II.—Internal or Local Trade.

23. The chief variations and their causes are given below :—

Imports into Karachi.

Cotton, raw (—99,062 maunds or 3,639 tons).—Owing to the deficiency of water supply and adverse winds, the crop was below the normal.

Gram and Pulse (—208,618 maunds or 7,664 tons).—The decrease was brought about by short crops owing to absence of timely rains.

Jawar and Bajra (+189,953 maunds or 6,978 tons).—As stated in para 16 *supra* there was a greater demand from Cutch and Kathiawar Ports owing to famine which led to increased imports for shipment.

Rice not in the husk (—56,867 maunds or 2,089 tons).—The decrease is due to the fact that a large quantity was despatched by rail to the Bombay Presidency owing to famine in Gujrat.

Wheat (+54,978 maunds or 2,020 tons).—The increase was due to favourable prices being obtainable for shipment to Foreign Countries. The quantity is however, largely below the imports of 1907-08 and 1909-10, this being accounted for in some measure by the quantity absorbed by flour-mills in the up-country towns in the Province.

Grain and Pulse, other sorts (+155,312 maunds or 5,705 tons).—The increase was due to larger receipts of barley for shipment.

Rape and Mustard seed (+62,571 maunds or 2,299 tons).—High prices ruling in Karachi stimulated imports.

Tilseed (—197,863 maunds or 7,268 tons).—The failure of rains and deficiency of water supply are responsible for the decrease.

Oilseeds others (—580,458 maunds or 21,323 tons).—The decrease was partly due to unfavourable crops and partly to the separate exhibition of cotton-seed in the trade accounts from the 2nd quarter.

Exports from Karachi.

Coal and Coke (+1,140,259 maunds or 41,887 tons).—The difference is in the exports for the Railway.

Piece Goods, Indian (+11,814 maunds or 434 tons).—The increase was due to the competition of the Indian Mills in the lower qualities of Grey Piece Goods.

Twist and Yarn, European (—316 maunds or 12 tons), *Twist and Yarn, Indian,* (+8,872 maunds or 326, tons), *Piece Goods, European* (+39,226 maunds or 1,441 tons), *Brass* (+213 maunds or 8 tons), *Copper* (+3,140 maunds or 115 tons), *Iron and Steel wrought, Bars, sheets, etc.* (+90,239 maunds or 3,314 tons), *Other Manufactures of Iron and Steel* (+14,605 maunds or 537 tons), *Kerosene oil* (+46,535 maunds or 1,709 tons), *Dried fruits and nuts* (+18,261 maunds or 671 tons), *Sugar Refined* (—120,049 maunds or 4,410 tons), *Sugar Unrefined, Gur, etc.* (+28,045 maunds or 1,030 tons). The reasons given in paragraph 22 above apply here also.

III.—Other important features of the trade.

24. The trade of the seaport town of Karachi during the year 1911-12 was, as usual larger than that of the rest of Sind.

25. A statement showing the trade between the Punjab and Sind by the River Indus is attached. The total quantity of the import traffic which took the rail at Sukkur and Kotri during the year under review was maunds 10·68 lakhs against maunds 9·30 lakhs in the preceding year. The total imports from the Punjab by river for the past two years being maunds 2,018,975 and maunds 2,279,650 respectively.

26. A statement showing the value rates adopted for each article for each qarter is attached as Appendix A.

F. S. PUNNETT,
Chief Collector of Customs in Sind.

Karachi Customs House,
24th September 1912.

NOTE.

For the purpose of the inland trade statistics, the whole of India is divided into 17 blocks, *viz.*, eight blocks representing the British Provinces—(1) Madras, (2) Bombay, (3) Sind and British Baluchistan, (4) Bengal, (5) United Provinces of Agra and Oudh, (6) Panjab, (7) Central Provinces and Berar and (8) Eastern Bengal and Assam; four representing the Native States—(1) Rajputana and Central India, (2) Kashmir, (3) the Nizam's Territory and (4) Mysore; and five representing the chief seaport towns—(1) Madras, (2) Bombay, (3) Karachi, (4) Calcutta and (5) Chittagong. The trade of Native States which lie within the external boundaries of a British Province is included in the trade of that province. Under this arrangement of blocks, the trade exhibited under Sind and British Baluchistan represents the trade of the Province of Sind and British Baluchistan, including the Native State of Khairpur, but excluding the seaport town of Karachi, the trade of which is shown separately. Similarly the trade shown against Madras, Bombay, Bengal and Eastern Bengal and Assam represents the trade of those provinces, exclusive of the seaport towns of Madras, Bombay, Calcutta and Chittagong respectively. The work of registering the trade is performed by the principal railway audit offices.

The required information is collected from railway invoices which show the description of goods, the places from which they are sent and at which they are delivered and their gross actual weights. The weight recorded in the tables represents net weight, which is obtained by deducting a certain percentage (which is fixed at different rates for the several classes of goods, for packing materials) from gross actual weight.

Information in respect of the import trade by rail is supplied every quarter to this office for compilation by the Examiner of Accounts, North-Western Railway, Lahore, and the Auditor, Jodhpur-Bikanir Railway, Jodhpur.

The figures of the Export trade are furnished by :—

(1) The Examiner of Accounts, North-Western Railway, Lahore.

(2) The Government Examiner of Accounts, Bombay, Baroda and Central India Railway, Bombay.

(3) The Examiner of Accounts, Oudh and Rohilkhand Railway, Lucknow.

(4) The Examiner of Accounts, Eastern Bengal State Railway, Calcutta.

(5) The Chief Auditor, East Indian Railway, Calcutta.

(6) The Chief Auditor, Bengal North-Western Railway Company, Limited, Gorakhpur.

(7) The Auditor, Bengal Nagpur Railway, Calcutta.

(8) The Chief Auditor, Great Indian Peninsula Railway, Bombay. (Indian Midland Railway Section).

(9) The Director-General of Commercial Intelligence, Calcutta.

(10) The Auditor of Bengal Provincial Railway Company, Limited, Magra.

(11) The Auditor of Accounts, Rohilkhand and Kumaon Railway, Bareilly.

The river-borne trade represents the trade carried by country boats plying on the Indus between the Panjab and Sind and is registered at Sukkur and Kotri by clerks who collect the information from boatmen and the statistics are furnished to this office by the Deputy Conservator and Registrar, River Indus, Sukkur. The river traffic is adjusted in the return according to the following rules laid down in Government of India letter No. $\frac{51\frac{1}{2}}{57\cdot3}$ Statistics, dated the 5th June 1890 :—

I. When the imports by river from the Panjab exceed the imports by rail from Sukkur and Kotri into Karachi, the latter is classed as imports from the Panjab into Karachi and the difference as imports from the Panjab into Sind and British Baluchistan.

II. When the imports by rail from Sukkur and Kotri into Karachi exceed the imports by river from the Panjab, the latter is classed as imports from the Panjab into Karachi and the difference plus the imports from other stations in Sind and British Baluchistan to Karachi as trade between Sind and British Baluchistan and Karachi.

III. When the exports by rail from Karachi to Sukkur and Kotri exceed the exports by river to the Panjab, the latter is classed as exports from Karachi to the Panjab, and the difference plus the exports from Karachi to Sind (excluding Sukkur and Kotri) as trade between Sind and British Baluchistan and Karachi.

IV. When the exports by river to the Panjab exceed the exports by rail from Karachi to Sukkur and Kotri, the latter is classed as exports from Karachi to the Punjab and the difference as exports from Sind and British Baluchistan to the Panjab.

The quarterly returns received from the several registering officers are compiled in this office and a consolidated return showing quantities, but no values, is sent every quarter to the Director-General of Commercial Intelligence.

The registering officers give only the weight of the goods in maunds of $82\frac{2}{7}$ lbs. Lists of value rates are supplied by each province quarterly and the values of the trade of each quarter are worked out separately in this office and then added together for the annual returns. The Native States furnish no returns, the trade registered is the trade which comes into and goes out of each block by rail; and the value rates of Sind are adopted in calculating the values of the trade.

Appendix A shows the value rates for Sind and British Baluchistan adopted in each of the four quarters of the year 1911-12 at which the values of the articles in which the trade was carried on are calculated.

(*a*) The rates of articles marked A (in the appendix) which represent the value rates of foreign merchandise are based on the values declared by the importers in their bills of entry at the time of passing the goods out of the Customs House, and may therefore be regarded as approximately accurate.

(*b*) The rates for articles marked B, which represent articles of Indian Merchandise, are supplied by the Director of Agriculture, Bombay, who obtains them from the monthly returns furnished to him by the Huzur Deputy Collectors of Karachi, Hyderabad and Sukkur which are published by him in the Gazette. They represent the average of the monthly prices ruling on the 20th of each month and may be regarded as reliable.

(*c*) The rates of articles marked C in the appendix are obtained by the Director of Agriculture by local inquiry from wholesale dealers in Bombay. In respect of Railway plant, inquiry is made of the B. B. and C. I. and G. I. P. Railway workshops, and in respect of twist and yarn and piece goods (Indian), the rates are worked out from quotations furnished by the Mill-owners' Association to the Chamber of Commerce. These rates may be regarded as approximately correct.

(*d*) The rates of articles marked D are the rates fixed once for all in consultation with the Director-General of Commercial Intelligence, Calcutta, and are therefore merely conventional.

(*e*) The rates of articles marked E, which represent Indian liquors, are supplied by the Abkari Inspector, Karachi.

Table I shows the rail and river-bone trade of the blocks—(1) Karachi and (2) Sind and British Baluchistan with each other as well as with each of the other blocks into which India is divided. In this table the trade of any Province under any head which does not exceed Rs. 10,000 in value against either imports or exports has been lumped up and shown against "other places," the Province to which such trade appertains not being specifically shown. A statement showing the river-borne trade separately is also appended and marked I-A.

Table II shows the traffic between Sind and British Baluchistan and Karachi. The whole of this trade is carried by rail, as there is no direct communication with Karachi by river.

The articles shown in the above tables are arranged in alphabetical order. The classification corresponds in the main with that employed in the Sea-borne trade accounts, but is less detailed and the articles are not grouped under seven main headings as is done in the Sea-borne trade accounts.

TABLE No. I.

Statement showing the Rail and River-borne Trade of Sind and British Baluchistan with, Karachi and the External Blocks during the year ending the 31st March 1912.

N. B.—In this table the trade of any Province under any head which does not exceed Rs. 10,000 in value against either imports or exports has been lumped up and shown against 'other places', the Province to which such trade appertains not being specifically shown.

REPORT ON THE RAIL AND RIVER-BORNE TRADE OF THE PROVINCE OF SIND AND BRITISH BALUCHISTAN FOR THE YEAR 1912-13.

1. There were no changes in the classification of the articles which entered into the Rail and River-borne Trade of India during the year under review.

In consequence of the opening of the Gauhati extension of the Eastern Bengal State Railway, the registration of trade on the Dibru-Sadiya Railway has been transferred from the River Steam Navigation and the Indian General Navigation and Railway Companies to the Assam Railway and Trading Company, Dibrugarh, and the quarterly trade figures are being furnished by that company with effect from the quarter beginning 1st April 1912.

Owing to territorial redistribution, the Provinces of Bihar and Orissa, Bengal and Assam have been constituted external trade blocks and Chittagong in Bengal an internal block, with effect from 1st April 1912. The following is a complete list of external blocks as revised :—

1. Madras, excluding Madras seaports.
2. Bombay, excluding Bombay Port.
3. Sind and British Baluchistan, excluding Karachi.
4. Bengal, excluding Calcutta.
5. Bihar and Orissa.
6. United Provinces of Agra and Oudh.
7. Panjab.
8. Central Provinces and Berar.
9. Assam.
10. Rajputana and Central India.
11. Nizam's territory.
12. Mysore.
13 Kashmir.
14. Madras ports.
15. Bombay port.
16. Karachi.
17. Calcutta.

GENERAL REMARKS.

2. The increase in mileage on the North-Western Railway during the year 1912-13 amounted to 31½ miles only, 28¼ miles of which form part of the Jullunder Doab Railways, now under construction. The remaining 3¼ miles comprise miscellaneous additions and alterations.

The following works in connection with the open line portion of the North-Western Railway were carried out :—

Doubling lines :—

Lahore to Raewind, 24·14 miles.

Lahore to Lahore Cantonment West, 1·96 miles.

Rohri to Janvri, 4·25 miles.

The following lines were under construction :—

Sarai-Kala-Havelian Railway ...	34·70	miles.
Kalabagh-Bannu Railway ...	88·88	„
Jullunder-Hoshiarpur Railway ...	24·09	„
Jakhal-Hissar Railway ...	50·63	„

All the above were being constructed by Government and in addition the Railways known as the Jullunder Doab Railways, 130 miles in length, were being constructed by the Southern Punjab Railway Company.

3. The following statement shows the noticeable fluctuations, with their causes, in the prices of the staple products of India for the year 1912-13, as supplied by the Director of Agriculture, Poona :—

Serial No.	Articles.	Rate per Indian maund.		Variation.	Percentage increase or decrease.	Causes of variations.
		1911-12.	1912-13.			
		Rs. a.	Rs. a.	Rs. a.	Per centage.	
1	Fodder	1 1	1 8	+ 0 7	41·2	Less supply.
2	Gram and pulse ...	2 13	3 5	+ 0 8	17·8	Due to demand exceeding supply.
3	Jowar and bajra ...	3 7	4 1	+ 0 10	18·2	
4	Rice in husk	2 9	3 0	+ 0 7	17·1	
5	Skins of sheep, raw ...	22 6	27 0	+ 4 10	20·6	Due to more exportation.
6	Horns	17 10	12 11	— 4 15	28·0	Due to less demand.
7	Jute, raw	9 10	7 13	— 1 13	18·1	Less demand.
8	Gunny bags and cloth ...	15 5	17 11	+ 2 6	20·5	Due to more demand owing to season.
9	Opium	1,882 14	2,339 15	+ 457 1	24·3	Due to competition among exporters for shipping the article within stipulated time.
10	Cardamoms	183 8	216 14	+ 33 6	18·2	Due to less supply.
11	Wool, raw	32 6	47 11	+ 15 5	47·3	Due to smaller imports.

4. For the purposes of this report the trade shown in the statement below paragraph 5 has as usual been classed under two heads, *viz* :—(1) External and (2) Internal. Under the latter, the trade carried on with each other by the two blocks (1) Karachi and (2) Sind and British Baluchistan (excluding Karachi) is exhibited.

5. The subjoined statement gives the total quantity and value of trade with External and Internal blocks exclusive of Animals, living, and Treasure for the past 5 years ending 31st March 1913 :—

Description of trade.		1909-1909.		1909-1910.		1910-1911.		1911-1912.		1912-1913.	
		Quantity.	Value.	Quantity.	Value.	Quantity.	Value.	Quantity.	Value.	Quantity.	Value.

Local or Internal trade of Sind and British Baluchistan with Karachi.	Imports into Karachi.	5,755,153	4,14,66,168	9,139,300	6,52,36,441	7,737,187	5,91,16,832	8,049,310	5,80,85,317	8,409,869	6,55,19,649
	Exports from Karachi.	6,845,935	4,82,16,966	5,555,629	5,03,17,935	4,907,147	4,78,93,280	6,542,449	5,63,07,857	7,355,500 12/40	5,40,23,069
Total ...		12,601,088	8,96,23,134	14,694,929	11,55,54,376	12,734,334	10,69,20,112	14,591,759	11,43,93,174	15,765,369 21/40	11,95,42,718
Grand Total ...		40,395,685	27,00,74,380	63,213,361	40,02,61,380	62,490,878	40,05,14,212	77,776,527	45,20,99,546	92,932,815 14/40	52,45,99,182

6. The total trade (both External and Internal) rose from maunds 77,776,527 and Rs. 45,20,98,546 in 1911-12 to maunds 92,932,815 14/40 and Rs. 52,45,99,182 during the year under review exhibiting an advance of 151½ lakhs of maunds or 19 per cent. in quantity and 725 lakhs of rupees or 16 per cent. in value. The figures are again a record. The following figures show imports into and exports from Karachi for the past ten years :—

	Imports. Mds.	Exports. Mds.
1903-1904	31,404,936	8,061,112
1904-1905	51,597,837	12,512,802
1905-1906	29,600,376	17,167,818
1906-1907	38,356,426	16,889,989
1907-1908	40,968,201	23,358,303
1908-1909	15,144,796	22,112,933
1909-1910	41,685,024	18,442,739
1910-1911	43,804,326	14,678,445
1911-1912	57,520,196	15,030,426
1912-1913	69,096,363 21/40	18,532,036 14/40

It will be noticed that the imports improved from maunds 57,520,196 in the previous year to maunds 69,096,363$\frac{31}{40}$ during the year just ended, exhibiting an increase of 20 per cent. The rise in the decade was 120 per cent. The figures are the highest yet recorded.

Exports also show an advance of 35 lakhs of maunds or 23 per cent. when compared with the year 1911-12, but they are below the figures of the years 1907-08 and 1908-09, when very large consignments of coal were booked from Karachi.

The inundation in the Panjab during the year under review was a fair one but the monsoon was not so favourable for the unirrigated crops. In Sind the inundation was not a favourable one owing to the late rise of the river and its early and rapid fall. However, owing to the high prices of raw materials, the year was a prosperous one for the agriculturist.

7. Imports from the External blocks again showed an increase of maunds 119 lakhs or 22 per cent. in quantity and Rs. 574 lakhs or 27 per cent. in value, having risen from 52,628,412 maunds and Rs. 21,16,68,909 in 1911-12 to 64,538,007 maunds and Rs. 26,90,58,312 in 1912-13. Comparing with the quinquennial and decennial averages the increases were 60 and 80 per cent. in quantity and 51 and 86 per cent. in value, respectively.

8. Exports to the External blocks also increased from maunds 10,556,356 and Rs. 12,60,36,285 in 1911-12 to maunds 12,629,457$\frac{20}{40}$ and Rs. 13,59,98,154 during the year under review, exhibiting an increase of maunds 20$\frac{3}{4}$ lakhs or 19 per cent. in quantity and Rs. 10 lakhs or 7 per cent. in value. They also shew an advance on the figures of the year 1910-11, when the exports were larger than in 1911-12 but do not come up to the figures of the years 1905-06 to 1909-10.

9. In comparison with the previous year the sum total of the Local or Internal trade of the Province during the year under report showed an increase of maunds 11$\frac{3}{4}$ lakhs or 8 per cent. in quantity and Rs. 51$\frac{1}{2}$ lakhs or 4 per cent. in value. The imports from Sind and British Baluchistan improved by maunds 3$\frac{1}{2}$ lakhs or 4 per cent. in quantity and Rs. 74$\frac{1}{4}$ lakhs or 12 per cent. in value. Comparing with the year 1909-10 there was a decline of 8 per cent. in quantity but an increase of 4 per cent. in value. The exports rose in quantity by maunds 8 lakhs or 12 per cent. but declined in value by 22$\frac{3}{4}$ lakhs of rupees or 4 per cent. chiefly owing to larger despatches of cheap commodities such as Coal and Coke, Timber Unwrought and smaller exports of high priced articles such as Cotton Piece-goods, Liquors, Metals (Machinery and Millwork and Hardware, &c.), Dried Fruits and Nuts and Railway Plant and Rolling Stock.

An explanation of the causes of fluctuation in the principal commodities is given below in paragraphs 16, 22 and 23.

EXTERNAL TRADE.

Imports.

10. The imports from the Punjab increased by nearly maunds 35 lakhs or 8 per cent. in quantity and Rs. 297 lakhs or 16 per cent. in value. The increase chiefly occurred under Cotton, Raw (+656,665 maunds), Rice not in the husk (+54,187 maunds), Wheat (+6,028,315 maunds), Wheat Flour (+152,842 maunds), Grain and Pulse, others (+2,180,668 maunds), Hides of Cattle, Raw (+66,605 maunds), Linseed (+87,117 maunds), Rape and Mustard (+120,934 maunds), Til or Jinjili (+90,325 maunds), Railway materials, others (+144,256 maunds), and Timber Unwrought (+52,919 maunds). There was, however, a decline under Gram and Pulse (−5,715,962 maunds), Jawar and Bajra (−296,098 maunds), Rice in the husk (−39,257 maunds) and Wool, Raw (−67,490 maunds).

11. In Imports from the United Provinces of Agra and Oudh there was an improvement of 84¾ lakhs of maunds or 107 per cent. in quantity and Rs. 279½ lakhs or 111 per cent. in value chiefly under Cotton, Raw (+15,270 maunds), Gram and Pulse (+135,765 maunds), Wheat (+5,453,414 maunds), Grain and Pulse, others (+2,571,356 maunds), Rape and Mustard (+340,975 maunds), Til or Jinjili (+111,419 maunds), Oilseeds, others (+43,823 maunds), with a falling off under Jawar and Bajra (—160,001 maunds), and Gur, rab, &c. (—37,796 maunds).

12. Imports from Bombay, including the chief seaport town of Bombay, showed a decline of 20,145$\frac{15}{40}$ maunds or 26 per cent. in quantity and Rs. 5,18,342 or 25 per cent. in value, having fallen from maunds 75,291$\frac{19}{40}$ and Rs. 20,09,065 in the previous year to maunds 55,146$\frac{4}{40}$ and Rs. 14,90,723 during the year under review. The drop was noticeable chiefly under Ghi (—8,345 maunds), Timber Unwrought (—11,436 maunds).

13. Imports from Bengal including the chief seaport town of Calcutta fell from maunds 559,398 and Rs. 7,15,057 in 1911-12 to maunds 119,062 and Rs. 3,93,359 exhibiting a decrease of 78 per cent. in quantity and 44 per cent. in value chiefly due to the smaller receipts of Coal and Coke for Railway and private purposes (—411,777 maunds).

14. Imports from Rajputana and Central India showed a rise of maunds 29,156 or 4 per cent. in quantity and Rs. 3,63,361 or 10 per cent. in value as compared with the previous year's figures. The improvement was principally brought about by heavy receipts of Grain and Pulse, others (+108,869 maunds), with a setback in Gram and Pulse (—20,320 maunds), Wheat (—46,011 maunds), and Oilseeds, others (—13,959 maunds).

15. The trade with the other blocks is too insignificant to call for any special comment.

16. The causes of the principal variations are referred to below:—

Cotton Raw (+670,093 maunds or 24,616 tons). The area under cultivation in the Punjab in the year under report was less than in the previous year, but the yield was 45 per cent. more. In the United Provinces of Agra and Oudh the area cultivated was more than that of the previous year. These favourable conditions, combined with the fact that there was a large balance from the previous year's crop, which was a late one, swelled the imports.

Gram and Pulse (—5,600,758 maunds or 205,742 tons). The drought in Europe during 1911 was responsible for large exports of this article to that Continent for cattle-food and hence larger supplies were received from up-country for despatch, but during the year 1912 a heavy crop of Beet, sugar, and the consequent larger supply of roots available for cheap cattle feeding by the continental farmer, the enormous Maize crop and the abundant crop of Linseed accompanied by heavy declines in value curtailed the demand for export and consequently there were smaller imports by rail for shipment during 1912-13.

Jawar and Bajra (—457,036 maunds or 16,789 tons). The decrease under this head was due to less demand from Cutch and Kathiawar owing to good rain in those States during 1912.

Wheat (+11,439,264 maunds or 420,218 tons). Owing to the poor crops of wheat in Europe and Argentine, due to excessive rainfall and cold weather and the excellent harvests in India, larger quantities were imported for exportation to Europe. As in the previous year, India again held the first position in the supply of wheat to the United Kingdom. Punjab and the United Provinces were the chief suppliers.

Grain and Pulse, others (+4,864,744 maunds or 178,705 tons). The imports under this head mostly consist of Barley and Maize the crops of which were good. Owing to damp weather in Europe the quality of Barley crops was poor, hence there was a great demand for Indian Barley.

Hides of Cattle, Raw (+67,799 maunds or 2,491 tons), and *Skins of Sheep and Goats, Raw* (+9,088 maunds or 334 tons). The increase was due to the shortage of both China and South American Hides which brought about a tremendous demand on India and as a high range of prices was ruling throughout the year and fodder was scarce in certain parts of the country, farmers appear to have been induced to slaughter such of their cattle as may have been at all weakly, hence the increase.

Linseed (+142,771 maunds or 5,245 tons). The increase was due to the larger supplies available in the United Provinces of Agra and Oudh, where a very large area was put under cultivation owing to the high prices previously obtainable for the staple in Europe.

Rape and Mustard seed (+472,551 maunds or 17,359 tons). Larger cultivation in the Punjab combined with favourable prices ruling at home stimulated imports.

Til or Jinjili seed (+209,400 maunds or 7,692 tons). The area put under cultivation in the Punjab was some 58,000 acres more than that of the previous year owing to favourable rainfall and as prices were high, large imports were made for shipment abroad.

Exports.

17. The exports to the Punjab showed an increase of maunds 2,138,817 or 23 per cent. in quantity and Rs. 81,27,582 or 7 per cent. in value as compared with the figures of the previous year. The rise was chiefly noticeable under Coal and Coke, Government and private (+1,066,073 maunds), Cotton, Piece-goods, both Foreign and Indian (+59,971 maunds), Iron and Steel, Unwrought, Dust, Slag, &c. (+24,109 maunds), Iron and Steel Wrought, Bars, sheets, &c. (+60,113 maunds), Kerosene oil (+48,795 maunds), Railway materials, Sleepers and Keys of Steel and Iron (+230,902 maunds), Steel Rails and Fishplates (+162,564 maunds), Sugar Unrefined, Gur, Rab, &c. (+75,026 maunds), Sugar Refined, (+1,049,443 maunds), Timber, Unwrought, (+120,391 maunds), with a setback in Rice not in the husk (—154,414 maunds), Iron and Steel, other manufactures including Hardware and Cutlery (—62,463 maunds), Marble and stone (—219,207 maunds), Railway carriages and trucks and parts thereof (—43,228 maunds), Railway materials, other sorts (—194,204 maunds).

18. Exports to the United Provinces of Agra and Oudh rose from 534,511 maunds and Rs. 52,51,344 in 1911-1912 to maunds 624,202 and Rs. 68,93,584 during the year under notice, exhibiting an increase of maunds 89,691 or 16 per cent. in quantity and Rs. 16,42,240 or 31 per cent. in value. The improvement occurred chiefly under Cotton Piece-goods, Foreign and Indian (+7,644 maunds), Iron and Steel, bars, sheet, &c. (+19,534 maunds), Machinery and Millwork (+4,529 maunds), Other manufactures including Hardware and Cutlery (+7,347 maunds), Kerosene oil (+30,206 maunds), Railway materials, other sorts (+25,902 maunds), Sugar, refined (+51,547 maunds), with a drop under Rice not in the husk (—27,756 maunds), Railway materials, Steel rails and Fishplates (—20,518 maunds).

19. Exports to Bombay, including the chief seaport town of Bombay, fell from maunds 401,214 and Rs. 24,26,953 in 1911-1912 to maunds 235,619 and Rs. 15,07,846 during the year just ended chiefly under Rice not in the husk (—160,677 maunds).

20. Exports to Rajputana and Central India improved by maunds 8,498 and Rs. 7,87,619 or 1 and 25 per cent., respectively, as compared with the figures of the previous year. The increase was principally brought about by the the larger despatches of Cotton Piece-goods, Indian (+2,749 maunds), Kerosene oil (+7359 maunds) and Sugar refined (+5,418 maunds).

21. The Export trade with rest of the blocks is too insignificant to be commented upon.

22. The principal variations are explained below :—

Coal and Coke (+1,042,167 maunds or 38,284 tons). The rise is chiefly due to the increase in traffic and to the fact that more was imported by sea. In anticipation of a reduction in the wharfage charges at Keamari larger quantities of Coal were ordered by the North-Western Railway by sea.

Cotton, Piece-goods, Foreign (+27,149 maunds or 997 tons). and *Cotton Piece-goods, Indian* (+44,251 maunds or 1,625 tons). The increase was due to the prosperous condition of people owing to the high prices obtainable for the produce of the country.

Sugar, refined (+1,113,490 maunds or 40,904 tons). The increase followed upon a decrease last year. There was a better sugar-cane crop in Java and prices were lower than in 1911–1912 when owing to the failure of the beet crop large quantities were exported to Europe. It is a remarkable coincidence that such a large quantity can be consumed, *viz.*, 1,03,859 tons.

Gur, Rab, &c. (+71,277 maunds or 2,618 tons). The imports mostly consist of Java Molasses, the trade in which was started some three years ago. It is mostly used in distilleries where it takes the place of the local product jagree which is a much dearer article.

II. Internal or Local Trade.

23. The following are the principal fluctuations and their causes :—

Imports into Karachi.

Cotton, Raw (+95,474 maunds or 3,507 tons). During 1912–1913 the area put under cultivation in Sind was smaller than that of the previous year owing to the late opening of the canals and the deficiency of water supply. The increase is therefore wholly due to the arrivals from the crop of 1911-1912 which was a late one.

Gram and pulse (—187,519 maunds or 6,888 tons), *Wheat* (—767,215 maunds or 28,183 tons), and *Grain and pulse, others* (—189,673 maunds or 6,968 tons). The decrsease was brought about by smaller crops in Sind due to low inundation, deficiency of water supply and absence of rain.

Jawar and Bajra (—66,801 maunds or 2,454 tons). In the previous year large quantities were received for exports to Cutch and Kathiawar when famine conditions prevailed. This year, however, there were good crops in consequence of a favourable rainfall and there was a consequent falling off in the demand.

Rice in the husk (+10,827 maunds or 398 tons), and *rice not in the husk* (+341,061 maunds or 12,529 tons). The prices of Burma rice being high in consequence of the demand from the further East and the Bengal crop being also poor there was a good demand from Foreign countries for Sind rice, hence the increase.

Hides, raw (+6,400 maunds or 235 tons) ... } The remaks made against
Skins, raw (+7,605 maunds or 279 tons) ... } these articles in paragraph 16 above apply here also.

Cottonseed (+710,179 maunds or 26,088 tons). The prices of the seed in England rose owing to smaller exports from Bombay and consequently larger quantities were received form Sind for export.

Rape and Mustardseed (—149,284 maunds or 5,484 tons). The remarks under wheat apply also to this article.

Tin or Jinjiliseed (+47,418 maunds or 1,742 tons). The increase was brought about by the high range of prices ruling and the extension of cultiva-

tion owing to good rains, some rice lands having also been sown with til in Larkana and Upper Sind Frontier on account of the deficiency of water supply.

Wool, raw (+8,998 maunds or 330 tons). A high level of prices and larger demand from Europe account for the rise under this head.

Exports From Karachi.

Coal and Coke (+193,389 maunds or 7,104 tons). There was again an increase during the year under report. Larger receipts by sea account for the rise.

Cotton, Piece-goods, Foreign (—24,876 maunds or 914 tons) and *Cotton, Piece-goods, Indian* (—8,021 maunds or 295 tons). The decrease followed upon an increase noted last year.

Sugar, refined (+104,538 maunds or 3,840 tons) and *Sugar, unrefined Gur, Rab, &c.* (+27,768 maunds or 1,020 tons). The remarks against these articles in paragraph 22 above apply here also.

III. Other important features of the trade.

24. The trade of the seaport town of Karachi during the year 1912-1913 was as usual larger than that of the rest of Sind.

25. A statement showing the trade between the Punjab and Sind and British Baluchistan by the river Indus is attached. The total quantity of the Import traffic which took the rail at Sukkur and Kotri during the year under comment was 421,195 maunds against 1,068,790 maunds in the preceding year. The total imports from the Punjab by river for the past two years were maunds 2,279,630 and maunds 1,601,960, respectively.

26. A statement showing the value rates adopted for each article for each quarter is attached as appendix A.

Karachi Customs House,
22nd September 1913.

F. S. PUNNETT,
Chief Collector of Customs in Sind.

NOTE.

For the purpose of the inland trade statistics, the whole of India is divided into 17 blocks, *viz.*, nine blocks representing the British Provinces—(1) Madras, (2) Bombay, (3) Sind and British Baluchistan, (4) Bengal, (5) Bihar and Orissa, (6) United Provinces of Agra and Oudh, (7) Punjab, (8) Central Provinces and Berar, and (9) Assam; four representing the Native States—(1) Rajputana and Central India, (2) Kashmir, (3) the Nizam's Territory and (4) Mysore; and four representing the chief seaport towns—(1) Madras, (2) Bomday, (3) Karachi, and (4) Calcutta. The trade of Native States which lie within the external boundaries of a British Province is included in the trade of that province. Under this arrangement of blocks, the trade exhibited under Sind and British Baluchistan represents the trade of the Province of Sind and British Baluchistan, including the Native State of Khairpur, but excluding the seaport town of Karachi, the trade of which is shown separately. Similarly the trade shown against Madras, Bombay and Bengal represents the trade of those provinces, exclusive of the seaport towns of Madras, Bombay and Calcutta respectively. The work of registering the trade is performed by the principal railway audit offices.

The required information is collected from railway invoices which show the description of goods, the places from which they are sent and at which they are delivered and their gross actual weights. The weight recorded in the tables represents net weight, which is obtained by deducting a certain percentage (which is fixed at different rates for the several classes of goods, for packing materials) from gross actual weight.

Information in respect of the import trade by rail is supplied every quarter to this office for compilation by the Examiner of Accounts, North-Western Railway, Lahore, and the Auditor, Jodhpur-Bikanir Railway, Jodhpur.

The fig ures of the Export trade are furnished by :—

(1) The Examiner of Accounts, North-Western Railway, Lahore.

(2) The Government Examiner of Accounts, Bombay, Baroda and Central India Railway, Bombay.

(3) The Examiner of Accounts, Oudh and Rohilkhand Railway, Lucknow.

(4) The Examiner of Accounts, Eastern Bengal State Railway, Calcutta.

(5) The Chief Auditor, East Indian Railway, Culcutta.

(6) The Chief Auditor, Bengal North-Western Railway, Gorakhpur.

(7) The Auditor, Bengal Nagpur Railway, Culcutta.

(8) The Chief Auditor, Great Indian Peninsula Railway, Bombay. (Indian Midland Railway Section).

(9) The Assam Railways & Trading Company, Dibrugarh.

(10) The Auditor of Bengal Provincial Railway Company, Limited, Magra.

(11) The Auditor of Accounts, Rohilkhand and Kumaon Railway, Bereilly.

The river-borne trade represents the trade carried by country boats plying on the Indus between the Panjab and Sind and is registered at Sukkur and Kotri by clerks who collect the information from boatmen and the statistics are furnished to this office by the Deputy Conservator and Registrar, River Indus, Sukkur. The river traffic is adjusted in the return according to the following rules laid down in Government of India letter No. 518/57-3 Statistics, dated the 5th June 1890:—

I. When the imports by river from the Panjab exceed the imports by rail from Sukkur and Kotri into Karachi, the latter is classed as imports from the Panjab into Karachi and the difference as imports from the Panjab into Sind and British Baluchistan.

II. When the imports by rail from Sukkur and Kotri into Karachi exceed the imports by river from the Panjab, the latter is classed as imports from the Panjab into Karachi and the difference plus the imports from other stations in Sind and British Baluchistan to Karachi as trade between Sind and British Baluchistan and Karachi

III. When the exports by rail from Karachi to Sukkur and Kotri exceed the exports by river to the Panjab, the latter is classed as exports from Karachi to the Panjab, and the difference plus the exports from Karachi to Sind (excluding Sukkur and Kotri) as trade between Sind and British Baluchistan and Karachi.

IV. When the exports by river to the Panjab exceed the exports by rail from Karachi to Sukkur and Kotri, the latter is classed as exports from Karachi to the Panjab and the difference as exports from Sind and British Baluchistan to the Panjab.

The quarterly returns received from the several registering officers are compiled in this office and a consolidated return showing quantities, but no values, is sent every quarter to the Director-General of Commercial Intelligence.

The registering officers give only the weight of the goods in maunds of $82\frac{2}{7}$ lbs. Lists of value rates are supplied by each province quarterly and the values of the trade of each quarter are worked out separately in this office and then added together for the annual returns. The Native States furnish no returns, the trade registered is the trade which comes into and goes out of each block by rail; and the value rates of Sind are adopted in calculating the values of the trade.

Appendix A shows the value rates for Sind and British Baluchistan adopted in each of the four quarters of the year 1911-12 at which the values of the articles in which the trade was carried on are calculated.

(*a*) The rates of articles marked A (in the appendix) which represent the value rates of foreign merchandise are based on the values declared by the importers in their bills-of-entry at the time of passing the goods out of the Customs House, and may therefore be regarded as approximately accurate.

(*b*) The rates for articles marked B, which represent articles of Indian Merchandise, are supplied by the Director of Agriculture, Bombay, who obtains them from the monthly returns furnished to him by the Huzur Deputy Collectors of Karachi, Hyderabad and Sukkur which are published by him in the Gazette. They represent the average of the monthly prices ruling on the 20th of each month and may be regarded as reliable.

(*c*) The rates of articles marked C in the appendix are obtained by the Director of Agriculture by local inquiry from wholesale dealers in Bombay. In respect of Railway plant, inquiry is made of the B. B. and C. I. and G. I. P. Railway workshops, and in respect of twist and yarn and piece-goods (Indian), the rates are worked out from quotations furnished by the Mill-owners' Association to the Chamber of Commerce. These rates may be regarded as approximately correct.

(*d*) The rates of articles marked D are the rates fixed once for all in consultation with the Director-General of Commercial Intelligence, Calcutta, and are therefore merely conventional.

(*e*) The rates of articles marked E, which represent Indian liquors, are supplied by the Abkari Inspector, Karachi.

Table I shows the rail and river-borne trade of the blocks—(1) Karachi and (2) Sind and British Baluchistan with each other as well as with each of the other blocks into which India is divided. In this table the trade of any Province under any head which does not exceed Rs. 10,000 in value against either imports or exports has been lumped up and shown against "other places," the Province to which such trade appertains not being specifically shown. A statement showing the river-borne trade separately is also appended and marked I-A.

Table II shows the traffic between Sind and British Baluchistan and Karachi. The whole of this trade is carried by rail, as there is no direct communication with Karachi by river.

The articles shown in the above tables are arranged in alphabetical order. The classification corresponds in the main with that employed in the Sea-borne trade accounts, but is less detailed.

TABLE No. I.

Statement showing the Rail and River-borne Trade of Sind and British Baluchistan with Karachi and the External Blocks during the year ending the 31st March 1912.

N. B.—In this table the trade of any Province under any head which does not exceed Rs. 10,000 in value against either imports or exports has been lumped up and shown against 'other places', the Province to which such trade appertains not being specially shown.

	(*b*) Dressed or Tanned	2·5	D	59 2	60 14	58 4	61 11

A.—Approximately accurate, based on the values put in by merchants in bills of entry, while passing the goods from the Customs House.

B.—Reliable, being based on the average prices ruling every month and published in the Gazette by the Director of Agriculture.

C.—Conventional rates fixed once for all in consultation with the Director-General of Commercial Intelligence, Calcutta.

D.—Approximately accurate, being the rates given by the Director of Agriculture, who obtains them by local inquiries in Bombay from Railway Workshops, Mill-owners, &c.

No. C-156 of 1914.

REVENUE DEPARTMENT.

Office of the Commissioner in Sind,

Government House, Karachi, 21st October 1914.

Report on the Rail and River borne Trade of the Province of Sind and British Baluchistan for the year 1913-1914.

Submitted to Government.

R. P. BARROW,
Commissioner in Sind.

To

THE CHIEF SECRETARY TO GOVERNMENT,
Revenue Department,
BOMBAY.

L (IV) 302—i

REPORT ON THE RAIL AND RIVER-BORNE TRADE OF THE PROVINCE OF SIND AND BRITISH BALUCHISTAN FOR THE YEAR 1913-14.

1. There were no changes in the classification of the articles which enter into the Rail and River-borne Trade of India during the year under review.

The quarterly trade figures of the Dibru Sadiya Railway, which were being submitted for incorporation in the consolidated return from 1st April 1912 by the Assam Railway and Trading Company, Dibrugarh, are now being furnished by the Chief Examiner of Accounts, Eastern Bengal State Railway, Calcutta, with effect from the quarter ending 31st March 1914.

The arrangement of blocks and the system of registration of trade remained unchanged.

GENERAL REMARKS.

2. There was an increase in mileage on the North-Western Railway of 269·23 miles during the year under review due to the opening for traffic of the undermentioned lines:—

Jullundur-Hoshiarpur Railway	...	24·09 miles.
Seraikala-Havelian Railway	...	34·70 „
Kalabagh-Bannu Railway	...	89·00 „
Jakhal-Hissar Railway ...	...	50·63 „
Phillour-Lohian Khas section of the Jullundur Doab Railway	...	39·99 „
Ferozepur-Makhu section of the Jullundur Doab Railway ...	...	26·43 „
Lohian Khas-Gidar Pindi section of the Jullundur Doab Railway	...	4·39 „
		269·23 miles.

The double line between Ambala and Saharanpur (miles 48) was completed during the year; and the doubling of the following sections was in hand:—

Janvri-Begmanji ...	...	4·09 miles.
Chahi-Pad Idan	...	6·82 „
Pad Idan (mile 220) to Kharars ...		·75 „

The following lines were under construction during the year under notice:—

		Miles.	
Laki-Pezu-Tank Railway	...	47·92	By Government.
Mandra-Bhon Railway	...	46·5	By Government on behalf of Messrs. Killick Nixon & Co.
Jullundur-Mukerian Railway, *via* Dasuya ...	...	45·15	By the agency of Messrs. Gillanders Arbuthnot & Co.
Phagwara-Rahon Railway, *via* Nawanshahr. ...	...	28·	Do.
Jacobabad-Kashmor Railway	...	76·50	By Messrs. Forbes, Forbes, Campbell & Co.
Makhu-Girdar Pindi section of the Jullundur Doab Railway.	...	10·5	By the Southern Punjab Railway.
Jullundur-Nakoder section of the Jullundur Doab Railway.	...	19·82	Do.

3. The following statement shows the noticeable fluctuations, with their causes, in the prices of the staple products of India for the year 1913-14, as supplied by the Director of Agriculture, Poona :—

Serial No.	Articles.	Rate per Indian maund. 1912-13.	Rate per Indian maund. 1913-14.	Variation.	Percentage in increase or decrease.	Causes of variation.
		Rs. a.	Rs. a.	Rs. a.	Percentage.	
1	Fodder	1 8	0 12	– 0 12	50·0	Fall due to more plentiful supply of grass and kadbi.
2	Jowar and bajri ...	4 1	3 5	– 0 12	18·5	Due to better season.
3	Hides of cattle, dressed ..	50 2	64 15	+ 14 13	42·5	Due to more demand and limited stock.
4	Do. do. raw ...	27 0	36 1	+ 9 1	33·3	
5	Horns	12 11	18 12	+ 6 1	47·7	
6	Gunny bags and cloth ...	17 11	22 1	+ 4 6	24·7	Due to more demand.
7	Cocoanut oil	25 10	30 0	+ 4 6	17·1	Rise due to less imports.
8	Poppy	10 11	8 11	– 2 0	18·7	Due to more supply.
9	Opium	2,339 15	2,676 10	+ 336 11	14·4	Due to introduction of the system of auction sales with an enhanced pass-fee and to fluctuations in the prices of opium in the China market.
10	Cardamoms	216 14	348 0	+ 131 2	60·4	Due to less supply.
11	Sugar unrefined ...	7 10	6 3	– 1 7	18·8	Due to more supply.

4. For the purpose of this report the trade shown in the statement below paragraph 5 has as usual been classed under two heads, *viz.*, (1) External and (2) Internal. Under the latter, the trade carried on with each other by the two blocks (1) Karachi and (2) Sind (excluding Karachi) and British Baluchistan is exhibited.

5. The subjoined statement gives the total quantity and value of trade with External and Internal blocks, exclusive of Animals, living, and Treasure for the past 5 years :—

Description of trade.		1909-10.		1910-11.		1911-12.		1912-13.		1913-14.	
		Quantity.	Value.	Quantity.	Value.	Quantity.	Value.	Quantity.	Value.	Quantity.	Value.
		I. mds.	Rs.	I. mds.	Rs.	I. mds.	Rs.	I. mds.	Rs.	I. mds.	Rs.
External trade of the Province.	Imports...	34,223,500	16,81,51,731	38,468,339	17,18,63,251	52,628,412	21,16,68,909	64,538,007 4/5	2,690,58,310	43,816,791 11/15	22,76,47,747

Local or Internal trade of Sind and British Baluchistan with Karachi.	Imports into Karachi.	9,139,300	6,52,36,441	7,737,187	5,91,16,832	8,049,310	5,80,85,517	8,409,869	6,55,19,649	11,731,141 29/40	6,79,80,100
	Exports from Karachi.	5,555,629	5,03,17,935	4,997,147	4,78,03,280	6,542,449	5,63,07,657	7,355,500 23/40	5,40,23,069	8,442,703 19/40	5,76,96,784
	Total ...	14,694,929	11,55,54,376	12,734,334	10,69,20,112	14,591,759	11,43,93,174	15,765,369 23/40	11,95,42,718	20,173,844 33/40	12,56,76,884
Grand Total ...		63,213,361	40,02,61,380	62,490,878	40,05,14,212	77,776,527	45,20,98,546	92,932,815 11/40	52,45,99,182	78,184,483 4/40	49,50,98,449

6. The total trade (both External and Internal) declined from maunds 92,932,815 and Rs. 52,45,99,182 in 1912-13 to maunds 78,184,483 and Rs. 49,50,98,449 during the year under comment, exhibiting a falling off of maunds 147 lakhs or 15 per cent. in quantity and 295 lakhs of rupees or 5 per cent. in value.

The figures are, however, larger than any of the years preceding 1912-13, when a very large trade was carried on in Barley and Wheat, owing to better crops in the Punjab and a strong demand from Europe.

The following figures show Imports into and Exports from Karachi during the last decade :—

	Imports Mds.	Exports. Mds.
1904-1905	51,597,837	12,512,802
1905-1906	29,600,376	17,167,818
1906-1907	38,356,426	16,889,989
1907-1908	40,968,201	23,358,303
1908-1909	15,144,796	22,112,933
1909-1910	41,685,024	18,442,739
1910-1911	43,804,326	14,678,445
1911-1912	57,520,196	15,030,426
1912-1913	69,096,363	18,532,036
1913-1914	52,424,664	20,441,417

It will be noticed from the above figures that the Imports into Karachi during the year under report fell from maunds 69,096,363 in 1912-13 to maunds 52,424,664, showing a contraction of maunds 16,671,699 or 24 per cent. due to smaller receipts of Grains and Seeds owing to poorer Rabi crops in the Punjab during 1912-13.

Exports, on the other hand, showed an advance of maunds 1,909,381 or 10 per cent., having risen from maunds 18,532,036 in 1912-13 to maunds 20,441,417 during the year under comment. Nearly the whole of the increase was made up by the large exports of Coal and Coke for railway purposes and Sugar. The figures are, however, below those of the year 1907-08 and 1908-09. The rainfall in Sind was considerably above the average and helped to a great extent to neutralize the bad effects of the sudden fluctuations in the levels of the inundation canals. However, in a few low-lying districts damage was caused by floods, but in others the rain saved the situation as plants were withering. The inundation may therefore be called on the whole a fair one, and the area put under cultivation was larger. In the Punjab the early cessation of the 1913 rains did not harm the winter crops but affected adversely the Rabi crops, especially Rape and Wheat, and will affect next year's figures. The inundations in the Punjab were on the whole favourable.

7. Imports from the External blocks showed a deficit of maunds 20,721,216$\frac{6}{40}$ or 32 per cent. in quantity and Rs. 4,14,14,340 or 15 per cent. in value, having declined from maunds 64,538,007$\frac{6}{40}$ and Rs. 26,90,58,310 in 1912-13 to maunds 43,816,791$\frac{34}{40}$ and Rs. 22,76,47,747 in 1913-14. Comparing with the quinquennial average, there was a drop of maunds 2,919,219 or 6 per cent. in quantity and a rise of Rs. 1,79,69,758 or 8 per cent. in value.

The rise in values was due to the high prices of Hides Raw, Skins Raw Ghi and Wool during the year under comment.

8. Exports to the External blocks again showed an advance of maunds 15 lakhs or 11 per cent. in quantity and Rs. 57 lakhs or 4 per cent. in value, having risen from maunds 12,629,438 and Rs. 13,59,98,154 in 1912-13 to maunds 14,193,846 and Rs. 14,17,73,818 in 1913-14. The volume of exports during the year under notice was smaller in quantity than the year 1905-06 and 1907-08 to 1909-10, but the value is the highest yet recorded.

9. The total of the Internal trade of the Province of Sind and British Baluchistan with Karachi in 1913-14 again exhibited an increase of maunds 44 lakhs or 28 per cent. in quantity and Rs. 61 lakhs or 5 per cent. in value as compared with the figures of the year 1912-13. The imports into Karachi from Sind and British Baluchistan rose from maunds 8,409,869 and Rs. 6,55,19,649 in the last year to maunds 11,731,141$\frac{32}{40}$ and Rs. 6,79,80,100 during the year under report, exhibiting an increase of maunds 33 lakhs or 39 per cent. in quantity and Rs. 24 lakhs or 3 per cent. in value. The large difference in the percentage is chiefly due to the fact that stone, a cheap article, was imported in much larger quantities. Exports also showed an advance of

11 lakhs or 15 per cent. in quantity and 37 lakhs or 6 per cent. in value as compared with the previous year. The principal articles of increase under Imports were Jowar and Bajra, Rice, Wheat, Wheat-flour, Rape and Mustard seed, and Til or Jinjili seed, with a setback in Cotton Raw, Hides and Skins Raw, Cotton seed and Wool Raw; and under Exports, Iron and Steel, Wrought, Bars, Sheets, Girders and other commercial forms of Iron and Steel, Kerosine oil, Railway plant and Rolling stock and Sugar, with a falling off in Coal and Coke, Cotton Piece-goods, Indian and Dried Fruits and Nuts.

An explanation of the causes of fluctuation in the principal commodities is given below in paras. 16, 22 and 23.

EXTERNAL TRADE.

Imports.

10. The imports from the *Punjab* showed a decrease of maunds 113 lakhs or 24 per cent. in quantity and Rs. 147 lakhs or 7 per cent. in value as compared with the last year. The decrease occurred chiefly under Gram and Pulse (—605,877 maunds), Jowar and Bajra (—45,977 maunds), Wheat (—8,798,199 maunds), Wheat flour (—121,153 mauds), Gram and Pulse others (—3,924,906 maunds), Hides of Cattle Raw (—25,619 maunds), Linseed (—66445 maunds), Railway Materials others (—219,386 maunds), and Timber Unwrought (—117,485 maunds). On the other hand, there were increases under Cotton Raw (+446,773 maunds), Rice in the husk (+51,919 maunds), Rice not in the husk (+98,194 maunds), Skins Raw (+28,918 maunds), Rape and Mustard seeds (+1,995,574 maunds), and Sugar unrefined, Gur, etc., (+45,981 maunds).

11. The Imports from the *United Provinces of Agra and Oudh* also exhibited a falling off of maunds 95 lakhs or 58 per cent. in quantity and Rs. 258 lakhs or 48 per cent. in value as compared with the previous year. The decrease is chiefly noticeable under Gram and Pulse (—429,408 maunds), Jowar and Bajra (—147,312 maunds), Wheat (—5,995,501 maunds), Grain and Pulse, others (—3,348,801 maunds), Til or Jinjili (—53,621, maunds) and Oilseeds others (—27,460 maunds), with a rise in Cotton Raw (+17,242 maunds), and Rape and Mustard seeds (+546,776 maunds).

12. The Imports from *Bombay*, including the chief sea-port town, rose in quantity from maunds 55,146 to maunds 56,608 but declined in value from Rs. 14,90,723 to Rs. 11,24,422. The rise in quantity and fall in value was cheifly due to larger receipts of Grain and Pulse and Tobacco Unmanufactured and smaller imports of higher priced commodities such as Cotton Piece-goods Indian and Ghi.

13. Comparing with the year 1912-13 the imports from *Bengal*, including the Chief sea-port Calcutta, showed an improvement in quantity of maunds 25,452 but a decrease in value of Rs. 67,531 during the year under review principally due to larger imports of Coal and Coke.

14. The Import trade with *Rajputana and Central India* showed a decline of maunds 2¼ lakhs or 36 per cent. in quantity and Rs. 8 lakhs or 21 per cent. in value. Gram and Pulse (—32,110 maunds), Jowar and Bajra (—6,671 maunds), Wheat (—6,884 maunds), Grain and Pulse, others (—178,791 maunds), and Ghi (—4,179 maunds) were chiefly responsible for the decline.

15. The Import trade with other blocks is too insignificant to require special mention.

16. The principal variations are explained below:—

Cotton Raw (+462,855 maunds or 17,003 tons). The increase was due to a very large area having been put under cultivation during the year under review, *viz.*, 2,052,900 acres against 1,575,201 acres. The outturn was 60 per cent. higher than in the previous year and exceeded the quinquennial and decennial averages by 82 and 89 per cent. respectively.

Gram and Pulse (—1,060,875 maunds or 39,235 tons). Demand from European countries only occurs when there is scarcity of Fodder Grain there, and as Maize and low quantity of Oats were in plentiful supply from Argentine, Russia and the Plate, the demand fell off during the year.

Jowar and Bajra (—201,242 maunds or 7,393 tons). Better crops of Jowar in Sind restricted imports.

Wheat (—14,802,024 maunds or 543,748 tons). The area put under cultivation in the Punjab was 9,289,100 acres in 1912-13 againt 11,018,479 acres in 1911-12, and the outturn was accordingly less by 819,157 tons. European crops in the United States of America and Canada restricted exports to Europe from this country and hence less imports from the Punjab. Besides a large quantity was exported from the Punjab to the United Provinces of Agra and Oudh where scarcity of grain prevailed.

Grain and Pulse, others (—7,459,337 maunds or 274,016 tons). The heading chiefly consists of Barley and Maize. As regards Maize the remarks against Gram and Pulse also apply to this article. In the case of Barley, the low rates in Europe brought about the decrease.

Hides Raw (—25,734 maunds or 945 tons). The decrease was due to the fact that the year was not one of drought and Fodder was plentiful. The demand throughout the year was greater than the supply in spite of a higher range of prices.

Skins Raw (+33,661 maunds or 1,238 tons). There was a pronounced scarcity in the world's supply of raw materials and the ever-increasing demand for the finished article caused prices to rise and all available supplies were shipped to Europe and America, hence the increase in imports.

Linseed (—119,228 maunds or 4,380 tons). This seed mostly comes from the United Provinces of Agra and Oudh, where a small area was put under cultivation owing to want of rain.

Rape and Mustard seed (+2,557,910 maunds or 93,965 tons). The Rabi area was smaller. The year began with a fairly even level of rates for the Rabi crop, with a tendency to rise, and the season closed with rates fairly high. The Toria crop was an excellent one, and accounts for the increase.

Til seed (—79,725 maunds or 2,929 tons). The decrease was brought about by a somewhat smaller area being put under this seed in the Punjab, *viz.*, 143,551 against 156,813 acres, Cotton having displaced it.

Ghi (—28,438 maunds or 1,045 tons). The decrease was due to plentiful local supply and also large receipts by sea from coast-ports.

Silk Raw, Indian (—4,030 maunds or 148 tons). The drop was wholly due to a fire which occurred in the Kashmir State Silk Filature Factory in August 1913. The factory was practically demolished and a large stock of cocoons and raw silk was destroyed.

Sugar Unrefined, Gur, Rab, &c. (+27,912 maunds or 1,025 tons). The rise was due to a better crop in the Punjab where a large area was put under sugarcane cultivation owing to the favourable conditions at sowing time.

Wool Raw (—3,527 maunds or 130 tons). The decrease was due to smaller receipts into Sind, while the Punjab sent a somewhat larger quantity. Although there was a demand for good Wool in Europe, prices were high and manufacturers were only buying what was necessary for immediate requirements.

Exports.

17. The Export trade with the *Punjab* exhibited an advance to the extent of 1,388,934 maunds or nearly 11 per cent. in quantity and Rs. 51,06,341 or 4 per cent. in value. The increase is chiefly noticeable under

Coal and Coke (+1,232,060 maunds), Cotton Twist and Yarn Indian (+25,183 maunds), Cotton Piece-goods, European (+53,084 maunds), Other Manufactures including Hardware and Cutlery (+13,860 maunds), Marble and Stone (+654,980 maunds), Kerosene oil (+66,292 maunds), Sugar, Unrefined Gur, &c. (+15,571 maunds), and Sugar Refined (+231,493 maunds). There was, however, a decrease under Cotton Piece-goods Indian (—20,427 maunds), Dyes, others (—13,550 maunds), Rice not in the husk (—93,289 maunds), Gunny Bags and Cloth (—22,750 maunds), Iron and Steel, Wrought, Bars, Sheets, Girders, &c. (—31,968 maunds), Machinery and Millwork (—15,992 maunds), Steel Rails and Fishplates (—298,614 maunds), Sleepers and Keys of Iron and Steel (—240,858 maunds), Railway Materials, others (—77,883 maunds), and Timber, Unwrought (—117,817 maunds).

18. Exports to the *United Provinces of Agra and Oudh* again rose from maunds 624,202 and Rs. 68,93,584 in the previous year to maunds 788,754 and Rs. 72,01,071 during the year under report, showing an increase of maunds 1¾ lakhs or 26 per cent. in quantity and Rs. 3 lakhs or 4 per cent. in value. The increases were chiefly under Coal and Coke (+4,626 maunds), Jowar and Bajra (+3,179 maunds), Wheat (+5,070 maunds), Rice not in the husk (+4,274 maunds), Gram and Pulse, others (+18,528 maunds), Iron and Steel Wrought, Bars, Sheets, Girders, &c. (+43,525 maunds), Other Manufactures including Hardware and Cutlery (+4,016 maunds), Railway Materials, Steel, Rails and Fishplates (+8,094 maunds), Sugar Refined (+103,996 maunds), with a setback under Cotton Piece-goods Foreign (—6,461 maunds), Kerosene oil (—14,143 maunds), Railway Materials, others (—5,941 maunds).

19. Exports to *Bombay*, including the chief seaport town of Bombay, increased in quantity by maunds 16,697 or 7 per cent. and decreased in value by Rs. 1,27,209 or 8 per cent. during the year under report as compared with the previous year. This decrease in value was due to larger despatches of cheaper grain, Jowar and Bajra to that block (+82,672 maunds). Rice not in the husk, a dearer grain, however, showed a decline of 59,964 maunds.

20. Exports to *Rajputana and Central India* showed a falling off of 52,606 maunds or 9 per cent. in quantity and Rs. 55,771 or 1 per cent. in value. The decrease was specially noticeable under Coal and Coke (—64,371 maunds), Cotton seed (—15,961 maunds), Carrige Trucks and parts there of (—8,959 maunds). Steel Rails and Fishplates (—91,222 maunds), and Railway Materials, others (—60,561 maunds). On the other hand, there were increases under Jowar and Bajra (+110,662 maunds). Rice not in the husk (+12,324 maunds), Gram and Pulse others (+26,126 maunds), Iron and Steel wrought Bars, Sheets, Girders, etc. (+10,713 maunds), Kerosene oil (+9,970 maunds), Locomotive Engines, and parts thereof (+8,504 maunds), Sugar Refined (+9,877 maunds), and Timber Unwrought (+1,736 maunds).

21. The Export trade with the remaining blocks is too small to call for special mention.

22. The causes of the principal variations are explained below :—

Coal and Coke for Railway purposes (+1,190,773 maunds or 43,743 tons). The increase was due to some 124,487 tons more of Coal, Coke and Patent fuel having been imported by Railway from the United Kingdom and Africa, as it was found to compete favourably with Indian during the prevalence of high rates in the early part of the year. The increase was wholly absorbed by the Punjab.

Cotton Twist and Yarn Foreign (—1,656 maunds or 61 tons) and *Twist and Yarn Indian* (+25,254 maunds or 928 tons). Foreign twist and yarn is gradually on the decline since 1908-09, being replaced by Indian. Last year Indian twist and yarn showed a decline, the figures for the previous year being the largest yet recorded. In the year under review, however, the exports to External blocks exceeded even those of the year 1911-12 and are record ones.

Cotton Piece-goods Foreign (+46,948 maunds or 1,725 tons). Trade has been fairly healthy throughout the year, though latterly the failures of several Indian banks curtailed credit and affected it. There is not much doubt that business has been overdone in certain lines, particularly in Mulls and in a lesser degree in Nainsooks.

Cotton Piece-goods Indian (—20,861 maunds or 766 tons). The fall was brought about by the smaller imports of Indian Piece-goods from Bombay by sea due to less demand from the Punjab owing to the prevalance of plague and during the latter half of the year owing to financial stringency brought about by the failure of several Swadeshi banks.

Iron and Steel wrought, Bars, Sheets, Girders and other Commercial forms of Iron and Steel (+19,884 maunds or 730 tons). The increase was due to large importations from Europe by sea owing to favourable prices and a greater demand for building and construction works.

Kerosene oil (+63,552 maunds or 2,335 tons). The increase is ascribed to larger receipts by sea of cheaper low grade oil during the year under notice.

Dried Fruits and Nuts (—10,526 maunds or 387 tons). The drop was due to a partial failure of the date crop, tightness of the money market and the disturbed state of Oman Territory whence dates are largely exported.

Sugar Refined (+351,253 maunds or 12,903 tons). The increase was due to the fact that the average prices for the year were lowest since 1907 owing to large beet crops in Europe and sugarcane crop in Java from where larger supplies were received during the year. The Indian crop in the United Provinces of Agra and Oudh (the province that grows the largest quantity of sugarcane) was smaller, namely, about two-thirds of the normal. This also helped to increase the demand for Foreign sugar.

II.—Internal or Local Trade.

23. The chief variations and their causes are given below.

Imports into Karachi.

Cotton Raw (—7,370 maunds or 271 tons). The area put under cultivation during the year under review was 331,642 acres against 296,375 acres and the outturn was 132,214 bales of 400 lbs. each against 123,152 bales during the previous year. Although the crop was a large one, it was held over for distant delivery, the stock in Karachi on 31st March 1914 being over and above the previous years.

Jowar and Bajra (+799,363 maunds or 29,364 tons). The jowar crop was a large one and being a cheap grain very large exports were made to Aden and Turkey Asiatic, Red Sea ports where it is reported the crops were failures. A large quantity was also exported to the United Kingdom for the first time.

Rice not in the husk (+383,762 maunds or 14,281 tons). 'Although the crops were about half the normal in the Hyderabad district and two-thirds elsewhere, there was an increase in imports owing to a larger demand from Ceylon, Aden and Gulf ports.

Wheat (+1,078,531 maunds or 39,620 tons). The area put under this article in Sind was some 470,873 acres in 1912-13 against 391,264 acres in 1911-12, and the outturn was 126,801 tons against 97,171 tons. The yield was 70/85 per cent. of the normal, hence the increase.

Wheat flour (+96,861 maunds or 3,558 tons). The increase was due to a greater demand from Persia and Gulf ports.

Hides Raw (—27,644 maunds or 1,015 tons). The causes mentioned in para. 16 apply here also.

Skins Raw (—12,111 maunds or 445 tons). The decrease under this head is ascribed to less mortality among the cattle owing to fodder being in plentiful supply.

Cotton seed (—480,617 maunds or 17,655 tons). There was a good cotton crop and plenty of seed available for export, but prices for local consumption were higher than the equivalent rates in England, hence the smaller imports.

Rape and Mustard seed (+22,292 maunds or 819 tons). The increase was due to good toria crop and a demand from European countries.

Tilseed (+85,018 maunds or 3,123 tons). The increase was due to better crops in Sind.

Wool Raw (—51,003 maunds or 1,874 tons). This wool is so dirty and mixed that there is little demand for it, shippers having found that it does not pay to ship to England.

Exports from Karachi.

Coal and Coke (—965,379 maunds or 35,463 tons). The decrease was due to the fact that the Railway obtains as little Bengal coal as possible by sea through Karachi, as it apparently finds it more profitable to get it by rail, especially for stations at a distance from Karachi.

Cotton Piece-goods Indian (—17,499 maunds or 643 tons.) *Iron and Steel wrought, Bars, Sheets, Girders, &c.* (+192,690 maunds or 7,078 tons). *Kerosine oil* (+37,605 maunds or 1,381 tons). *Dried Fruits and Nuts* (—3,344 maunds or 123 tons). *Sugar Refined* (+79,525 maunds or 2,921 tons.)	The causes assigned to these articles in para. 22 above apply here also.
Railway Carriages and Trucks (+2,466 maunds or 91 tons). *Locomotive Engines and Tenders* (+51,359 maunds or 1,887 tons). *Steel Rails and Fishplates* (+150,416 maunds or 5,525 tons). *Railway Materials, others* (+435,504 maunds or 15,998 tons).	The increases are due to varying requirements of the railway and double line works.

III.—Other important features of the Trade.

24. The trade of the sea-port town of Karachi during 1913-14 was as usual larger than that of the rest of Sind.

25. A statement showing the trade between the Punjab and Sind and British Baluchistan by the River Indus for the year 1913-14 is attached.

The total imports from the Punjab by river amounted to maunds 1,835,490 during the year under review against maunds 1,601,960 in the previous year. Out of the above, the total quantity which took the rail at Sukkur and Kotri was maunds 968,309 against maunds 421,195. The total quantity exported to the Punjab by river was maunds 248,560 during the year under comment. Of these, maunds 166,796 were sent from Karachi, and the rest, *viz.*, maunds 81,764 from Sind and British Baluchistan, against maunds 246,890 during 1912-13, out of which Karachi claimed maunds 150,896 and Sind and British Baluchistan maunds 95,994.

26. A statement showing the value rates adopted for each article for each quarter is attached as Appendix A.

Karachi Customs House,
24th September 1914.

F. S. PUNNETT,
Chief Collector of Customs in Sind.

NOTE.

For the purpose of the inland trade statistics, the whole of India is divided into 17 blocks, *viz.*, nine blocks representing the British Provinces—(1) Madras, (2) Bombay, (3) Sind and British Baluchistan, (4) Bengal, (5) Bihar and Orissa, (6) United Provinces of Agra and Oudh, (7) Punjab, (8) Central Provinces and Berar, and (9) Assam; four representing the Native States—(1) Rajputana and Central India, (2) Kashmir, (3) the Nizam's Territory and (4) Mysore; and four representing the chief seaport towns—(1) Madras, (2) Bomday, (3) Karachi, and (4) Calcutta. The trade of Native States which lie within the external boundaries of a British Province is included in the trade of that province. Under this arrangement of blocks, the trade exhibited under Sind and British Baluchistan represents the trade of the Province of Sind and British Baluchistan, including the Native State of Khairpur, but excluding the seaport town of Karachi, the trade of which is shown separately Similarly the trade shown against Madras, Bombay and Bengal represents the trade of those provinces, exclusive of the seaport towns of Madras, Bombay and Calcutta respectively. The work of registering the trade is performed by the principal railway audit offices.

The required information is collected from railway invoices which show the description of goods, the places from which they are sent and at which they are delivered and their gross actual weights. The weight recorded in the tables represents net weight, which is obtained by deducting a certain percentage (which is fixed at different rates for the several classes of goods, for packing materials) from gross actual weight.

Information in respect of the import trade by rail is supplied every quarter to this office for compilation by the Examiner of Accounts, North-Western Railway, Lahore, and the Auditor, Jodhpur-Bikanir Railway, Jodhpur.

The figures of the Export trade are furnished by :—

(1) The Examiner of Accounts, North-Western Railway, Lahore.

(2) The Government Examiner of Accounts, Bombay, Baroda and Central India Railway, Bombay.

(3) The Examiner of Accounts, Oudh and Rohilkhand Railway. Lucknow.

(4) The Examiner of Accounts, Eastern Bengal State Railway, Calcutta,

(5) The Chief Auditor, East Indian Railway, Calcutta.

(6) The Chief Auditor, Bengal North-Western Railway, Gorakhpur.

(7) The Auditor, Bengal Nagpur Railway, Calcutta.

(8) The Chief Auditor, Great Indian Peninsula Railway, Bombay (Indian Midland Railway Section).

(9) The Auditor of Bengal Provincial Railway Company, Limited. Magra.

(10) The Auditor of Accounts, Rohilkhand and Kumaon Railway, Bareilly.

The river-borne trade represents the trade carried by country boats plying on the Indus between the Panjab and Sind and is registered at Sukkur and Kotri by clerks who collect the information from boatmen and the statistics are furnished to this office by the Deputy Conservator and Registrar, River Indus, Sukkur. The river traffic is adjusted in the return according to the following rules laid down in Government of India letter No. 518/57-3 Statistics, dated the 5th June 1890:—

I. When the imports by river from the Panjab exceed the imports by rail from Sukkur and Kotri into Karachi, the latter is classed as imports from the Panjab into Karachi and the difference as imports from the Panjab into Sind and British Baluchistan.

II. When the imports by rail from Sukkur and Kotri into Karachi exceed the imports by river from the Panjab, the latter is classed as imports from the Panjab into Karachi and the difference plus the imports from other stations in Sind and British Baluchistan to Karachi as trade between Sind and British Baluchistan and Karachi

III. When the exports by rail from Karachi to Sukkur and Kotri exceed the exports by river to the Panjab, the latter is classed as exports from Karachi to the Panjab, and the difference plus the exports from Karachi to Sind (excluding Sukkur and Kotri) as trade between Sind and British Baluchistan and Karachi.

IV. When the exports by river to the Panjab exceed the exports by rail from Karachi to Sukkur and Kotri, the latter is classed as exports from Karachi to the Panjab and the difference as exports from Sind and British Baluchistan to the Panjab.

The quarterly returns received from the several registering officers are compiled in this office and a consolidated return showing quantities, but no values, is sent every quarter to the Director of Statistics with the Government of India, Calcutta.

The registering officers give only the weight of the goods in maunds of $82\frac{2}{7}$ lbs. Lists of value rates are supplied by each province quarterly and the values of the trade of each quarter are worked out separately in this office and then added together for the annual returns. The Native States furnish no returns, the trade registered is the trade which comes into and goes out of each block by rail; and the value rates of Sind are adopted in calculating the value fo the trade.

Appendix A shows the value rates for Sind and British Baluchistan adopted in each of the four quarters of the year 1911-12 at which the values of the articles in which the trade was carried on are calculated.

(*a*) The rates of articles marked A (in the appendix) which represent the value rates of foreign merchandise are based on the values declared by the importers in their bills-of-entry at the time of passing the goods out of the Customs House, and may therefore be regarded as approximately accurate.

(*b*) The rates for articles marked B, which represent articles of Indian Merchandise, are supplied by the Director of Agriculture, Bombay, who obtains them from the monthly returns furnished to him by the Huzur Deputy Collectors of Karachi, Hyderabad and Sukkur which are published by him in the Gazette. They represent the average of the monthly prices ruling on the 20th of each month and may be regarded as reliable.

(*c*) The rates of articles marked C in the appendix are obtained by the Director of Agriculture by local inquiry from wholesale dealers in Bombay. In respect of Railway plant, inquiry is made of the B. B. and C. I. and G. I. P. Railway workshops, and in respect of twist and yarn and piece-goods (Indian), the rates are worked out from quotations furnished by the Mill-owners' Association to the Chamber of Commerce. These rates may be regarded as approximately correct.

(*d*) The rates of articles marked D are the rates fixed once for all ni consultation with the Director of Statistics with the Government of India, Calcutta, and are therefore merely conventional.

(*e*) The rates of articles marked **E**, which represent Indian liquors, are supplied by the Abkari Inspector, Karachi.

Table I shows the rail and river-borne trade of the blocks—(1) Karachi and (2) Sind and British Baluchistan with each other as well as with each of the other blocks into which India is divided. In this table the trade of any Province under any head which does not exceed Rs. 10,000 in value against either imports or exports has been lumped up and shown against "other places," the Province to which such trade appertains not being specifically shown. A statement showing the river-borne trade separately is also appended and marked I-A.

Table II shows the traffic between Sind and British Baluchistan and Karachi. The whole of this trade is carried by rail, as there is no direct communication with Karachi by river.

The articles shown in the above tables are arranged in alphabetical order. The classification corresponds in the main with that employed in the Sea-borne trade accounts, but is less detailed.

TABLE No. I.

Statement showing the Rail and River-borne Trade of Sind and British Baluchistan with Karachi and the External Blocks during the year ending the 31st March 1914.

N. B.—In this table the trade of any Province under any head which does not exceed Rs. 10,000 in value against either imports or exports has been lumped up and shown against 'other places', the Province to which such trade appertains not being specially shown.

L (IV) 285—1

REPORT ON THE RAIL AND RIVER-BORNE TRADE OF THE PROVINCE OF SIND AND BRITISH BALUCHISTAN FOR THE YEAR 1914-1915.

1. The following changes were made during the year under notice in the classified list of articles comprising the Rail and River-borne Trade of India :—

(1) The sub-head "Bran" under the main head "Fodder" was altered to "Bran and Crushed food."

(2) The head "Wood" with its sub-head "Timber, unwrought" was modified to "Wood and Timber" with a sub-head "Timber, excluding Railway sleepers."

There were no changes in the arrangement of blocks or in the system of the registration of trade.

GENERAL REMARKS.

2. In Sind the inundation of 1914 was the highest since 1897 and was very favourable. The rainfall was normal. The rabi crop of wheat which was dependent on the inundation of 1913 was not a favourable one, being about 44 per cent. less than in the previous year. Seeds, however, showed better results. The kharif crops were on the whole satisfactory. In the Punjab the rainfall was satisfactory and the water in the inundation canals was ample. The rabi crops of both wheat and seeds were larger than those of the previous year. Of the kharif crops, cotton and cereals suffered from excessive rain, hail and cold in October.

The crops in the United Provinces were below the average owing to scanty rainfall.

3. Extensions on the North-Western Railway totalled 106·52 miles, viz., Jullundar-Doab Railway 5′-6″ gauge— North-Western Railway.

			Miles
Constructed by the Southern Punjab Railway.	(1)	Gidderpindi-Makhu section	10·00
	(2)	Jullundar-Nakoder chord	19·82
		Total ...	29·82
Constructed through the agency of Messrs. Forbes, Forbes, Campbell & Co.	(3)	Jacobabad-Kashmore Railway, 2′-6″ gauge ...	76·70
		Total ...	106·52

The Malir Bridge and the double line between Malir and Landhi were opened for public traffic on the 15th January 1915.

The doubling of the following lines was also completed :—

		Miles.
(1)	Janvri-Begmanji section	4·09
(2)	Chahi-Pad Idan	6·82
(3)	Pad Idan-Kharars	·75
	Total ...	11·66

The following new lines were under construction during the year under report :—

	Miles.
Laki-Pezu-Tank Railway, 2′-6″ gauge (by Government)	46·48
Mandra-Bhaun Railway, 5′-6″ gauge (by Government on behalf of Messrs. Killick Nixon & Co.) ...	46·5

		Miles.
Jullundar-Mukerian Railway *via* Dasuya.	by Messrs. Gillanders ...	45·15
Phagwara-Rahon Railway *via* Nawanshahr.	by Messrs. Arbuthnot & Co. ...	28·0
Sialkot-Narowal Railway, 5′-6″ gauge (by Government on behalf of Messrs. Killick Nixon & Co.)	...	38·21

Rolling stock increased or was under supply during the year as follows:—

LOCOMOTIVE ENGINES.

79 Added and 165 under supply.

COACHING STOCK.

109 Bogies added and 196 under supply.

40 Four-wheelers added and 77 under supply.

GOODS STOCK.

100 Bogies (timber trucks) added and 20 under supply.

1,409 Four-wheeled covered wagons added and 1,283 under supply.

Jodhpur-Bikaner Railway.

4. The following particulars have been supplied by the Jodhpur-Bikaner Railway:—

Plans and estimates for the conversion to Broad gauge of the Hyderabad Mirpur Khas section of the Jodhpur-Hyderabad Railway (British section) were completed, but the war has prevented the work being taken in hand.

Six new crossing stations were constructed during the year, and improvements to watering arrangements continue to be made.

The construction of a line, 28 miles in length, from Ratangarh to Sardarshahr, an important town in the Bikaner State, is in progress.

The Jodhpur-Phalodi line was completed and opened on the 12th May 1914.

The following rolling stock was placed on the line during the calendar year 1914:—

13 passenger engines.
2 "E" class engines.
231 iron covered goods wagons.
2 water tanks.
1 bogie grass wagon.
3 goods brake vans.
1 bogie composite 1st, 2nd, Inter. and 3rd.
20 low sided wagons.
1 family 1st class.
1 bogie 3rd class.

The mileage of the system is as under:—

			Miles.
Jodhpur Railway ...	...	...	604·19
Bikaner Railway ...	...	...	470·37
Jodhpur-Hyderabad Railway	...	...	123 98
Mirpur Khas-Jhudo Railway	...	...	50·43

5. The following statement shows the noticeable fluctuations, with their causes, in the prices of the staple products of India for the year 1914-15, as supplied by the Director of Agriculture, Poona :—

Serial No.	Articles.	Rate per Indian maund. 1913-14.	Rate per Indian maund. 1914-15.	Variation.	Percentage increase or decrease.	Causes of variation.
		Rs. a.	Rs. a.	Rs. a.	Percentage.	
1	Cotton, raw	23 13	17 3	– 6 10	– 27·8	Smaller exports.
2	Twist and yarn, Indian ...	38 4	29 14	– 8 8	– 21·9	Fall in prices of cotton.
3	Fodder	0 12	0 10	– 0 2	– 16·7	A plentiful supply of grass and karbi.
4	Gram and pulse ...	3 7	4 3	+ 0 12	+ 21·8	Greater demand.
5	Rice not in the husk ...	5 9	6 11	+ 1 2	+ 20·2	Smaller supply.
6	Wheat	4 2	4 13	+ 0 11	+ 16·6	Greater exports in the beginning of war.
7	Wheat-flour	4 12	6 3	+ 1 7	+ 30·3	Rise in the price of wheat.
8	Bran	1 13	2 8	+ 0 11	+ 37·9	Greater demand by Military Department.
9	Skins of sheep, raw ...	36 1	26 0	– 10 1	– 27·9	Restriction on exports.
10	Rape and Mustard seed ...	5 7	4 8	– 0 15	– 17·2	Reduced exports.
11	Opium	2,676 10	1,234 0	–1,442 10	– 53·9	Cessation of export owing to termination of the opium trade with China.

6. For the purpose of this report the trade shown in the statement below paragraph 7 has, as usual, been classed under two heads, *viz.*, (1) External and (2) Internal. The trade under the latter is carried on with each other by the two blocks (1) Karachi and (2) Sind (excluding Karachi) and British Baluchistan.

7. The subjoined statement gives the total quantity and value of trade with External and Internal blocks, exclusive of Animals, living, and Treasure, for the past 5 years :—

Description of trade.		1910-11. Quantity.	1910-11. Value.	1911-12. Quantity.	1911-12. Value.	1912-13. Quantity.	1912-13. Value.	1913-14. Quantity.	1913-14. Value.	1914-15. Quantity.	1914-15. Value.
		I. mds.	Rs.	I. mds.	Rs.	I. mds.	Rs.	I. mds.	Rs.	I. mds.	Rs.
External trade of the Province.	Imports ...	38,468,339	17,18,63,251	52,628,412	21,16,68,909	64,538,007 6/40	26,90,58,310	43,819,303 34/40	22,77,26,669	28,824,300 17/40	13,79,08,245

8. The total quantity and value of trade, both External and Internal, excluding Animals, living, and Treasure, showed a falling off, during the year under review, of 20,210,863 maunds or 25 per cent. in quantity and Rs. 13 crores or 26 per cent. in value as compared with the previous year, and 34,956,674 maunds or 37 per cent. in quantity and Rs. 16 crores or 30 per cent. in value, when contrasted with the record year 1912-13, and of 4,514,737 maunds or 7 per cent. in quantity and Rs. 3½ crores or 9 per cent. in value in the quinquennium.

The imports into and exports from Karachi for the last 10 years are given below :—

		Imports. Maunds.	Exports. Maunds.
1905-06	...	... 29,600,376	17,167,818
1906-07	...	... 38,356,426	16.889,989
1907-08	...	... 40,968.201	23,358,303
1908-09	...	... 15,144,796	22,112,933
1909-10	...	... 14,685,024	18,442,739
1910-11	...	... 43,804,326	14,678,445
1911-12	...	... 57,520,196	15,030,426
1912-13	...	... 69,096,363	18,532,036
1913-14	...	... 52,424,923	20,441,417
1914-15	...	... 36,373,957	15,147,811

It will be seen that the imports during the year under review decreased from 52,424,923 maunds to 36,373,957 maunds, showing a drop of 16,050,966 maunds or 30 per cent., and were smaller than in any of the previous years of the decade except 1905-06, 1908-09 and 1909-10. The decrease occurred chiefly under Food grains, Oilseeds and Cotton, the exportation of which to foreign countries was greatly restricted by the war.

Exports also showed a falling off of 5,293,606 maunds or 25 per cent. when compared with the figures of the previous year, especially under Coal and coke for Railway purposes and Sugar Refined.

9. Compared with the year 1913-14, the imports from the External blocks during the year under comment showed a deficit of 14,995,003 maunds or 34 per cent. in quantity and Rs. 8,98,18,424 or 39 per cent. in value, having decreased from 43,819,303 maunds and Rs. 22,77,26,669 in 1913-14 to 28,824,300 maunds and Rs. 13,79,08,245 during 1914-15. The fall in the quinquennium was 9,644,039 maunds or 25 per cent. in quantity and Rs. 3,39,55,006 or 19 per cent. in value. There was, however, a rise of 5,865,639 maunds or 20 per cent. in quantity and Rs. 5,17,60,169 or 60 per cent. in value in the decade.

10. Exports to the External blocks likewise showed a decline of 3,550,420 maunds or 25 per cent. in quantity and Rs. 284 lakhs or 20 per cent. in value when compared with the previous year, and of 644,770 maunds or 5 per cent. in quantity and Rs. 84 lakhs or 6 per cent., in value in the quinquennium. Compared with the year 1905-06, there was a fall of 6,649,786 maunds or 38 per cent. in quantity and a rise of Rs. 178 lakhs or 18 per cent. in value.

11. The Internal or Local trade of the Province of Sind and British Baluchistan decreased from 20,173,844 maunds and Rs. 12,56,76,884 in 1913-14 to 18,508,404 maunds and Rs. 11,23,18,515 during the year under review, showing a contraction of 16,65,440 maunds or 8 per cent. and Rs. 1,33,58,369 or 10 per cent Imports into Karachi from Sind and British Baluchistan during the year under notice amounted to 11,340,505 maunds and Rs. 6,00,74,735 against 11,731,141 maunds and Rs. 6,79,80,100 in the previous year, showing a falling off of 390,636 maunds or 3 per cent. in quantity and Rs. 79,05,365 or 11 per cent. in value. The figures are, however, larger than in any of the previous years of the decade except the last. Exports also showed a decline of 1,274,804 maunds or 15 per cent. in quantity and Rs. 54,53,004 or 9 per cent. in value when compared with the previous year, but a rise of 2,170,752 maunds or 43 per cent. in quantity and Rs. 44,40,500 or 9 per cent. in value in the quinquennium and of 3,185,366 maunds or 79 per cent. in quantity and Rs. 1,92,53,790 or 50 per cent. in value in the decade. The fall was chiefly noticeable in Gram and pulse, Jawar and bajra, Rice in the husk, Rice not in the husk, Wheat, Tilseed and Woollen piece-goods, under Imports; and in Coal and coke, Iron and steel, wrought, Bars, sheets, etc., other manufactures including Hardware and Cutlery,

Locomotive engines, Steel rails and fishplates, Railway materials, other descriptions and Sugar, refined, under Exports.

An explanation of the causes of fluctuations in the principal commodities is given below in paragraphs 18, 24 and 25.

I.—EXTERNAL TRADE.

Imports.

12. The import trade with the Punjab exhibited a decrease of 10,085,633 maunds or 28 per cent. in quantity and Rs. 7,02,71,343 or 36 per cent. in value, the figures for the last two years being 35,604,679 maunds and Rs. 19,50,49,484 and 25,519,046 maunds and Rs. 12,47,78,141, respectively. The principal articles responsible for the decrease are—

	Maunds.
Cotton, raw	—1,214,514
Gram and pulse	— 932,172
Jawar and bajra	— 35,643
Rice in the husk	— 76,846
Rice not in the husk	— 172,020
Wheat	—1,070,766
Wheat flour	— 15,882
Grain and pulse, other descriptions... ...	—1,564,587
Hides and skins, raw	— 39,059
Rape and mustard seed...	—4,660,683
Til or jinjili seed	— 121,676
Railway materials, other descriptions ...	— 19,544

With a rise under—

Linseed	+ 33,575

13. The imports from the United Provinces showed a falling off of 6,076,589 maunds and Rs. 2,18,02,502 or 88 per cent. and 80 per cent. respectively, when compared with the figures of the previous year. The articles in which there were decreases were —

	Maunds.
Cotton, raw	— 31,321
Gram and pulse	— 28,826
Wheat	—3,942,066
Grain and pulse, other descriptions... ...	— 876,276
Rape and Mustard seed...	—1,138,761
Til or jinjili	— 63,654
Sugar unrefined, gur, rab, etc.	— 33,930

There was, however, an increase in —

Railway materials, other descriptions ...	+ 23,070

14. The imports from the Presidency and port of Bombay exhibited an improvement of 51,801 maunds or 91 per cent. in quantity and Rs. 7,81,562 or 69 per cent. in value, having risen from 56,608 maunds and Rs. 11,24,422 in 1913-14 to 108,410 maunds and Rs. 19,05,984 during the year under review. The increase is chiefly noticeable under Cotton piece-goods, Indian, Fruits and vegetables fresh, Coconut oil, Oils, other descriptions, Ghi, Tobacco, unmanufactured, and Unspecified articles of merchandise.

15. The imports from Bengal, including the port of Calcutta, showed an improvement of 431,091 maunds and Rs. 18½ lakhs or 293 per cent. and 459 per

cent., respectively, over the previous year. The increase was chiefly brought about by larger imports of—

	Maunds.
Coal and coke for Railway purposes	+ 280,334
Gunny bags and cloth	+ 113,444
Iron and steel, bars, sheets, girders, etc. ...	+ 27,107
Unspecified articles	+ 13,723

The increase was due in some measure to railway transport being more largely used owing to the effect of the war on shipping.

16. Imports from Rajputana and Central India, when compared with the figures for the year 1913-14, showed a contraction of 197,409 maunds or 49 per cent. in quantity and Rs. 6,45,756 or 22 per cent. in value having decreased from 396,786 maunds and Rs. 29,24,083 in the previous year to 1,99,377 maunds and Rs. 22,78,327 during the year under report. The decrease chiefly occurred under—

	Maunds.
Coal and coke	— 9,149
Tanning barks	— 12,724
Dyes and tans, other descriptions	— 7,635
Gram and pulse	— 58,031
Wheat	— 13,233
Grain and pulse, other descriptions	— 28,548
Marble and stone	— 25,809
Rape and mustard seed	— 43,782
Til or jinjili	— 18,477
Oil seeds, other descriptions	— 8,286
Ghi	— 4,239

There was, on the other hand, an increase in—

Cotton, raw	+ 17,534
Jawar and bajra	+ 1,107
Wool, raw	+ 9,315

17. The import trade with the remaining blocks is too small to require special mention.

18. The causes of fluctuations in the principal items are given below :—

Cotton, Raw (—1,228,041 maunds or 45,112 tons). The Sind crop was damaged by frost and the Punjab crop suffered from excessive rain in September, and from hail, rain and cold in October. Prices also dropped to a low figure and thus checked exports.

Gram and Pulse (—1,011,555 maunds or 37,159 tons). The decrease was due to a smaller crop in the Punjab owing to dryness of the seed bed in the south-east.

Jawar and Bajra (—36,970 maunds or 1,358 tons). The decrease was due to a smaller crop of bajra in the Punjab owing to excessive rain there at sowing time. There were also heavy exports of jawar to the United Provinces owing to scarcity in that area.

Rice not in the husk (—171,200 maunds or 6,289 tons). The fall was brought about by the smaller crop in the Punjab.

Wheat (—5,028,172 maunds or 184,708 tons). The crop in Sind was a small one owing to deficient water-supply. The Punjab outturn was good but a large quantity was supplied by that Province to the United Provinces where the local crop had again suffered from continued drought.

Grain and Pulse, other descriptions (—2,469,505 maunds or 90,716 tons). The decrease was due to the causes shown under wheat against the Punjab.

Hides, Raw (+7,395 maunds or 272 tons). The increase was due to a large demand from America, especially for all classes of leather suitable for Military purposes.

Skins, Raw (—24,205 maunds or 889 tons). The decrease was due to restriction on export.

Linseed (+23,559 maunds or 865 tons). The high prices of soya beans in Europe created a greater demand for linseed, hence the increase in export by sea.

Rape and Mustard seed (—5,843,907 maunds or 214,674 tons), and

Til seed (—204,565 maunds or 7,515 tons). The decrease was due to the cessation of exports by sea to several foreign countries owing to the war.

Ghi (—5,848 maunds or 215 tons). The decrease was due to low prices ruling in Sind in consequence of a good rainfall.

Silk, Raw (—1,455 maunds or 53 tons). The demand fell owing to a large surplus of raw material in Europe.

Exports.

19. The export trade with the Punjab showed a decline of 3,094,765 maunds or 24 per cent. in quantity and Rs. 2,56,30,879 or 20 per cent. in value, the figures for the previous year and the year under report being 12,546,736 maunds and Rs 1,27,730,582 and 9,451,971 maunds and Rs. 10,30,99,703, respectively. Decreases are noticeable chiefly under—

	Maunds.
Coal and coke	—1,738,879
Piece-goods, Foreign and Indian... ...	— 95,675
Iron and steel, wrought—	
Bars, sheets, girders, etc.	— 190,099
Other manufactures, including hardware and cutlery	— 63,813
Railway materials, other descriptions ...	— 154,590
Gur, rab, jaggery, etc.	— 96,597
Sugar, refined	—1,930,751
With a rise under—	
Dyes, other descriptions	+ 6,111
Jawar and bajra	+ 216,232
Rice not in the husk	+ 309,932
Iron and steel, unwrought	+ 31,874
Marble and stone	+ 93,294
Kerosene oil	+ 139,614
Oils, others	+ 9,746
Cotton seed	+ 35,713
Locomotive engines and parts thereof ...	+ 18,602
Carriages, trucks and parts thereof ...	+ 213,036
Steel, rails, etc.	+ 71,982
Sleepers and keys of iron and steel ...	+ 21,879

20. In exports to the United Provinces there was a decline of 290,726 maunds or 36 per cent. in quantity and Rs. 26,07,649 or 36 per cent. in value. The decrease was chiefly under—

	Maunds.
Grain and pulse, other descriptions ...	— 17,263
Iron and steel, wrought—	
Bars, sheets, girders, etc.	— 24,270
Other manufactures	— 14,732
Railway materials, other descriptions ...	— 23,265
Sugar, refined	— 232,658

Under Kerosene oil there was an increase of 16,310 maunds when compared with the previous year's figures.

21. Exports to the Presidency and port of Bombay decreased in quantity by 68,139 maunds but showed an advance in value of Rs. 1,30,614 as compared with the figures of the previous year The decrease in quantity was brought about by smaller exports of jawar and bajra and Rice not in the husk, and the rise in value was due to larger exports of relatively dearer goods, *viz.*, Machinery and millwork (+ 6,062 maunds), the actual increase in value under this article alone being Rs 1,59,176 or 233 per cent.

22. The exports to Rajputana and Central India exhibited a decrease of 72,581 maunds or 14 per cent. in quantity and an increase of Rs. 85,054 or 2 per cent. in value, the figures for the year under report being 417,583 maunds and Rs. 39,13,732 against 490,164 maunds and Rs 38,28,678. The decline occurred chiefly under—

	Maunds.
Jawar and bajra	— 91,549
Grain and pulse, other descriptions ...	— 26,619
Sugar, refined	— 13,088
There were, however, increases under:—	
Rice not in the husk	+ 20,855
Kerosene oil	+ 4,697
Oils, other descriptions	+ 2,311
Cotton seed	+ 20,017
Dried fruits and nuts	+ 1,281
Steel, rails, etc.	+ 3,429
Other saline substances	+ 4,351
Timber, excluding Railway sleepers ...	+ 4,962

23. The export trade with the other blocks is too insignificant to be commented upon.

24. The principal variations in the export trade are explained below:—

Coal and coke for Railway purposes (—1,744,582 maunds or 64,087 tons). The fall was brought about by smaller imports of Foreign coal and also by Bengal coal being largely imported by rail direct from producing centres.

Cotton twist and yarn, Indian (—19,096 maunds or 701 tons).
Cotton piece-goods, Indian (—9,764 maunds or 359 tons).
Cotton piece-goods, Foreign (—87,269 maunds or 3,206 tons).

Imports by sea were restricted owing to large balances being held from the previous year, stringency of the money market, plague and the war.

Jawar and bajra (+61,972 maunds or 2,276 tons). Exports to the Punjab rose to 227,358 maunds during the year under notice from 11,116 maunds during the previous year, while those to Rajputana and Central India fell from

112,267 maunds in 1913-14 to 20,718 maunds in 1914-15, and to the Bombay Presidency, including the port of Bombay, from 82,927 maunds to 22,705 maunds. The large demand from the Punjab was due to a smaller crop of Bajra in that Province coupled with the fact that the prices of the cheaper food grains, *viz.*, Barley, Bajra, Maize and Gram, rose considerably owing to the scarcity in the south-east of the Province and the famine in the United Provinces which took large quantities of grain from the Punjab. The decrease under Rajputana and Bombay may therefore be ascribed to the heavy exports to the Punjab.

Rice not in the husk (+316,122 maunds or 11,612 tons). While exports to Bombay were smaller owing to a good crop throughout the whole of the Bombay Presidency, Punjab took 309,932 maunds, Rajputana and Central India 20,855 maunds and the United Provinces 2,406 maunds more than in the previous year.

Iron and steel, wrought—Bars, sheets, girders and other commercial forms of iron and steel (—214,468 maunds or 7,878 tons). The decrease was due to the cessation of imports by sea from Belgium and Germany.

Kerosene oil (+163,692 maunds or 6,013 tons). The figures have been swelled by a large quantity of fuel oil imported by the North-Western Railway from Persia.

Dried fruits and nuts (—16,042 maunds or 589 tons). The decline is explained by the smaller imports of wet dates from Asiatic, Turkey owing to the war.

Sugar, refined (—2,190,622 maunds or 80,472 tons). With the commencement of the war imports of beet sugar ceased and large quantities of cane sugar were diverted to the United Kingdom. The deficit was to some extent made up by a good sugarcane crop in the United Provinces. Prices were abnormally high during the year.

Sugar, unrefined, gur, rab, etc. (—100,377 maunds or 3,687 tons). The demand from the upcountry markets was smaller owing to the excellent sugarcane crop in the United Provinces.

II.—Internal or Local Trade.

25. The following are the principal fluctuations :—

Imports into Karachi.

Cotton, raw (+15,982 maunds or 587 tons). Owing to large stocks remaining undisposed of at the end of the year 1913-14 in the interior there were heavy imports during the first five months of the year for exportation abroad.

Jawar and bajra (—688,490 maunds or 25,291 tons).
Rice not in the husk (—631,581 maunds or 23,201 tons). } The heavy decreases were due to smaller requirements for shipment to Bombay, Cutch and Kathiawar where the crops were favourable. Large quantities were exported to the south-eastern portion of the Punjab and the United Provinces where there was scarcity. Shortage of tonnage also restricted shipments to foreign ports and there was consequently a falling off in the demand at Karachi.

Wheat (—24,414 maunds or 897 tons). The decrease was due to the Sind crop being poor.

Cotton seed (+39,781 maunds or 1,460 tons). There was a large demand from Cutch and Kathiawar for cattle-feeding purposes.

Rape and Mustard seed (+113,282 maunds or 4,161 tons). The increase was due to a better crop.

Tilseed (—220,048 maunds or 8,083 tons). The decrease was due to the discontinuance of shipments by sea to Belgium and Austria-Hungary.

Exports from Karachi.

Cotton piece-goods, Indian (+42,003 maunds or 1,543 tons). Owing to the smaller imports of Greys from foreign countries a large demand for cheap Indian Greys sprang up, which accounts for the increase under this head.

Iron and steel, wrought—Bars, sheets, girders, etc. (—239,455 maunds or 8,706 tons).
Sugar refined (—197,487 maunds or 7,255 tons).
} The causes noted against these articles in paragraph 24 above are applicable here also.

Sugar unrefined, gur, rab, etc. (+38,897 maunds or 1,429 tons). Owing to the abnormal rise in prices of refined sugar there was a large demand for this commodity, hence the increase.

III.—Other important features of the trade.

26. The trade of the port of Karachi during 1914-15 was as usual larger than that of the rest of Sind.

27. A statement showing the trade between the Punjab and Sind and British Baluchistan by the River Indus for the year 1914-15 is attached. The total imports from the Punjab by river amounted to 1,684,720 maunds during the year under report showing a decrease of 150,770 maunds when compared with the previous year's figures, which were 1,835,490 maunds, and the total quantity which took the rail at Sukkur and Kotri was 837,562 maunds against 968,309 maunds. The total quantity exported to the Punjab by river was 244,330 maunds during the year under report, of which 135,717 maunds were exported from Karachi and the rest, *viz.*, 108,613 maunds, from Sind and British Baluchistan against 248,560 maunds during 1913-14, of which Karachi sent 166,796 maunds and Sind and British Baluchistan 81,764 maunds.

28. A statement showing the value rates adopted for each article for each quarter is attached as Appendix A.

H. H. HOOD,
Chief Collector of Customs in Sind.

Custom House,
Karachi, 24th September 1915.

NOTE.

For the purpose of the inland trade statistics, the whole of India is divided into 17 blocks, *viz.*, nine blocks representing the British Provinces—(1) Madras, (2) Bombay, (3) Sind and British Baluchistan, (4) Bengal, (5) Bihar and Orissa, (6) United Provinces of Agra and Oudh, (7) Punjab, (8) Central Provinces and Berar, and (9) Assam; four representing the Native States—(1) Rajputana and Central India, (2) Kashmir, (3) the Nizam's Territory and (4) Mysore; and four representing the chief seaport towns—(1) Madras, (2) Bombay, (3) Karachi, and (4) Calcutta. The trade of Native States which lie within the external boundaries of a British Province is included in the trade of that province. Under this arrangement of blocks, the trade exhibited, under Sind and British Baluchistan represents the trade of the Province of Sind and British Baluchistan, including the Native State of Khairpur, but excluding the seaport town of Karachi, the trade of which is shown separately. Smilarly the trade shown against Madras, Bombay and Bengal represents the trade of those provinces, exclusive of the seaport towns of Madras, Bombay and Calcutta, respectively. The work of registering the trade is performed by the principal railway audit offices.

The required information is collected from railway invoices which show the description of goods, the places from which they are sent and at which they are delivered and their gross actual weights. The weight recorded in the tables represents net weight, which is obtained by deducting a certain percentage (which is fixed at different rates for the several classes of goods, for packing materials) from gross actual weight.

Information in respect of the import trade by rail is supplied every quarter to this office for compilation, by the Examiner of Accounts, North-Western Railway, Lahore, and the Auditor, Jodhpur-Bikanir Railway, Jodhpur.

The figures of the Export trade are furnished by :—

(1) The Examiner of Accounts, North-Western Railway, Lahore.

(2) The Government Examiner of Accounts, Bombay, Baroda and Central India Railway, Bombay.

(3) The Examiner of Accounts, Oudh and Rohilkhand Railway Lucknow.

(4) The Examiner of Accounts, Eastern Bengal State Railway, Calcutta.

(5) The Chief Auditor, East Indian Railway, Calcutta.

(6) The Chief Auditor, Bengal and North-Western Railway, Gorakhpur.

(7) The Auditor, Bengal-Nagpur Railway, Calcutta.

(8) The Chief Auditor, Great Indian Peninsula Railway, Bombay, (Indian Midland Railway Section).

(9) The Auditor of Bengal Provincial Railway Company, Limited,, Magra.

(10) The Auditor of Accounts, Rohilkhand and Kumaon Railway, Bareilly.

The river-borne trade represents the trade carried by country boats plying on the Indus between the Punjab and Sind and is registered at Sukkur and Kotri by clerks who collect the information from boatmen, and the statistics are furnished to this office by the Deputy Conservator and Registrar, River

Indus, Sukkur. The river traffic is adjusted in the return according to the following rules laid down in Government of India letter No. 518/57-3 Statistics, dated the 5th June 1890:—

I. When the imports by river from the Panjab exceed the imports by rail from Sukkur and Kotri into Karachi, the latter is classed as imports from the Panjab into Karachi and the difference as imports from the Punjab into Sind and British Baluchistan.

II. When the imports by rail from Sukkur and Kotri into Karachi exceed the imports by river from the Panjab, the latter is classed as imports from the Punjab into Karachi and the difference plus the imports from other stations in Sind and British Baluchistan to Karachi as trade between Sind and British Baluchistan and Karachi.

III. When the exports by rail from Karachi to Sukkur and Kotri exceed the exports by river to the Punjab, the latter is classed as exports from Karachi to the Punjab, and the difference plus the exports from Karachi to Sind (excluding Sukkur and Kotri) as trade between Sind and British Baluchistan and Karachi.

IV. When the exports by river to the Punjab exceed the exports by rail from Karachi to Sukkur and Kotri, the latter is classed as exports from Karachi to the Punjab and the difference as exports from Sind and British Baluchistan to the Punjab.

The quarterly returns received from the several registering officers are compiled in this office and a consolidated return showing quantities, but no values, is sent every quarter to the Director of Statistics with the Government of India, Calcutta.

The registering officers give only the weight of the goods in maunds of 82⅔ lbs. Lists of value rates are supplied by each province quarterly and the values of the trade of each quarter are worked out separately in this office and then added together for the annual returns. The Native States furnish no returns, the trade registered is the trade which comes into and goes out of each block by rail; and the value rates of Sind are adopted in calculating the value of the trade.

Appendix A shows the value rates for Sind and British Baluchistan adopted in each of the four quarters of the year 1914-15 at which the values of the articles in which the trade was carried on are calculated.

(*a*) The rates of articles marked A (in the appendix), which represent the value rates of foreign merchandise are based on the values declared by the importers in their bills-of-entry at the time of passing the goods out of the Custom House, and may therefore be regarded as approximately accurate.

(*b*) The rates for articles marked B, which represent articles of Indian merchandise, are supplied by the Director of Agriculture, Bombay, who obtains them from the monthly returns furnished to him by the Huzur Deputy Collectors of Karachi, Hyderabad and Sukkur, which are published by him in the Gazette. They represent the average of the monthly prices ruling on the 20th of each month and may be regarded as reliable.

(*c*) The rates of articles marked C in the appendix are obtained by the Director of Agriculture by local inquiry from wholesale dealers in Bombay. In respect of Railway plant, inquiry is made of the B. B. and C. I. and G. I. P. Railway workshops, and in respect of Twist and yarn and Piece-goods (Indian), the rates are worked out from quotations furnished by the Mill-owners' Association to the Chamber of Commerce. These rates may be regarded as approximately correct.

(*d*) The rates of articles marked D are the rates fixed once for all in consultation with the Director of Statistics with the Government of India, Calcutta, and are therefore merely conventional.

(*e*) The rates of articles marked E, which represent Indian liquors, are supplied by the Abkari Inspector, Karachi.

Table I shows the rail and river-borne trade of the blocks—(1) Karachi and (2) Sind and British Baluchistan with each other as well as with each of the other blocks into which India is divided. In this table the trade of any Province under any head which does not exceed Rs. 10,000 in value against either imports or exports has been lumped up and shown against "Other places," the Province to which such trade appertains not being specifically shown. A statement showing the river-borne trade separately is also appended and marked I-A.

Table II shows the traffic between Sind and British Baluchistan and Karachi. The whole of this trade is carried by rail, as there is no direct communication with Karachi by river.

The articles shown in the above tables are arranged in alphabetical order. The classification corresponds in the main with that employed in the sea-borne trade accounts, but is less detailed.

TABLE No. I.

Statement showing the Rail and River-borne Trade of Sind and British Baluchistan with Karachi and the External Blocks during the year ending the 31st March 1915.

N. B.—In this table the trade of any Province under any head which does not exceed Rs. 10,000 in value against either imports or exports has been lumped up and shown against 'other places', the Province to which such trade appertains not being specifically shown.
